THE GREAT STENCH

CREATED BY THE SPEECH OF BOB KENNEDY, OF OHIO.

THE PENNSYLVANIA MEMBERS MAD, And Senator Quay Is at a Loss to Know What to Do-The Force Bill Men Behind Kennedy, Etc., Etc.

WASHINGTON, September 4 .- [Special.]-Some avenging Nemesis seems to have over-laken the republicans of this infamous con-gress, and the whole structure they have reared is trembling and crashing about their

0. 14.

Scandal has followed scandal. Jobbery galore has been uncovered; disgraceful rowdy-ism, vulgarity and even fist fighting have tharacterized the proceedings of the house; but it remained for "King Bob" Kennedy, the hero of several disgraceful exhibitions, both in Ohio and Washington, to crown the indict-ment the republicans have drawn up against themselves, by denouncing the chairman of the national committee of his own party as a criminal and a second Judas Iscariot, the arch-traitor of history, and the betrayer of the founder of the Christian

It is impossible to give an adequate idea of the intense excitement Kennedy's furious outbreak of yesterday has caused here. The speech was delivered late last evening, and many representatives did not know of it until they read the published abstract in the morning papers. They rushed eagerly for The Congressional Record, only to find that he who had prated so loudly of bravery and had im-puted cowardice to others, had himself shown the white feather. The speech had been

"withheld for revision. The republicans of the house immediately began fighting like Kilkenny cats, as to who ought to shoulder the responsibility of permitting Kennedy's onslaught. The Quay partisans were surprised that the attack of the Ohioan had been made with the full knowledge and consent of the rabid pro-force bill men, who were chagrined over the postponement of their pet measure. The assault was directed at Quay, not because he was the leading spirit in the movement in the senate which resulted in the abandonment of the force bill, but because he was the most vunerable object

THE REAL RESPONSIBLE SENATOR Senator Aldrich, and not Quay, is the responsible person. He saw that the force bill and tariff bill could not both pass, and inaugurated the scheme to shelve the former. Quay merely carried out the details. As a matter of fact, Aldrich is as much the autocrat of the senate, as Reed is of the house. While McKinley is posing for the farmers and working men, Aldrich is going right ahead, without any frills, perfecting the tariff bill in the interest of his manufacturing constituents. It is Aldrich, therefore, not

Quay, who is the direct casus belli now. All the republicans in the house, of course disclaim any complicity in the Kennedy upheaval, but it is well known that some of the force bill crowd are covertly elated over the affair, whether they were accessories be-

fore the fact or not. BURROWS IS CENSURED.

Representative Burrows, of Michigan, has to bear the brunt of the blame of the Quay partisans. He is the speaker pro tem. in Reed's absence, but claims he was powerless to call Kennedy to order. He, in turn, censures the republicans who were present for not making the point that Kennedy was transgressing the rules of the house. Nevertheless it is clearly within the province of the speaker to call a member "down" for speaking disrespectfully and discourteously of the members of the other house. However, since the milk was spilled publicans of both branches, and Mr. Quay in particular, was how to best repair the damage. Quay was badly flustered. He didn't know whether to pursue his policy of silence with reference to the damning charges or not. would be humiliating to be smoked out by a whippersnapper like Kennedy, not to speak of the danger such a course might subject him to. Some of his friends told him he could not longer afford to maintain silence now that the charge so freely used against him by democratic news papers, have been adopted by a member of his own party in the house, and spread upon the record. His indecision gave rise repeatedly during the afternoon to the rumor that he would make a statement in the senate.

DECIDES UPON PRUDENCE. He finally became convinced, however, that discretion was the better part of valor, and to his supporters in the house he announced that he should allow them to fight the battle. "I shall personally take no notice of the at-

tack of a blackguard and a loafer," he said. Some of his brother senators thought a reso-lution should be passed by the senate, calling the attention of the house to the infraction of the rules, but no such action can be taken until the speech is printed officially.

And this is what the Pennsylvania delega tion will seek to prevent. They declare they will make Kennedy smart for his impudence, and all sorts of dire vengeance is threatened At a consultation early this morning they de cided to offer a resolution to keep the speech out of The Record, but Representative Burrows said he would decline to entertain the resolution. He told them nothing could be done until after the speech was printed. Thereupon they drew up two resolu-tions, one to expunge the speech from The Record, and the other imposing a severe censure on Kennedy. These resolutions have been holding at Kennedy's head all day, threatening to introduce and pass them if he did not come to terms

KENNEDY GROWS AFRAID. Meantime the white elephant of the affair is badly scared at the propositions of the rumpus he has kicked up in the ranks of the grand old party. He tries to put on a bold front, but it is evident that his backbone is gristle and his knees weak. He said this afternoon that the Pennsylvania delegation wasn't the house, and if they wanted to make war on him, there were republicans on his side who would take a hand, but his next words showed that he is hunting for a hole to crawl out of. He claims he did not transgress the rules of the senate in his reference to

"I only repeated the charges newspapers have made," said he, "and did not pretend to have any original knowledge of my own." But how about the charge that Quay sold

out the republican party and your reference to him as a second Judas Iscariot?" "Oh," replied the author of all this row,

"that appertained to him as chairman of the national committee, not as senator." A CONFERENCE HELD.

Tonight, at a conference with the Pennsylvania republicans, Kennedy said he would withhold his speech from tomorrow's Record, but that it must be printed. However, he

said he would tone it down considerably. The speech is the bitterest pill Quay has yet had to swallow. As Quay is the recognized high chief of the republican party, it is no less an attack upon the party. While heretofore the charges against Quay have simply been par-tisan, it takes a different form now, and the republican party stands in a deeply embarrassing predicament to save itself. Heroic measures are necessary in one or the other house of congress to sup press and censure Kennedy. What measure can be resorted to are not yet settled upon, But one thing is certain, Quay is seriously

governor of Pennsylvania. VULGAR JOE'S MOUTH. The New York Sun today prints a picture of vulgar Joe Cannon's month in its leading editorial, and says it has achieved for its owner

crippled politically, and the chances are now decidedly against his man Delamater for

the celebrity of infamy.
"It is a campaign portrait," says The Sun, "and it should enter largely into the canvass now being made in the fifteenth district of Illinois."

DENNING WILL BE CONFIRMED. J. E. Denning will probably be confirmed as postmaster at Augusta during the present week. Senator Colquitt will oppose the confirmation, and there is a possible chance of defeating Denning. However, it is not probable. Senator Aldrich, of Rhode Island, would like to see Major Boyce retained, and has made every effort for him, but now that it is certain Wanamaker would never consent to Major Boyce holding the office, even though Denning was defeated, Mr. Aldrich will hardly oppose the confirmation. E. W. B.

LIVELY TIMES IN SOUTH CAROLINA A Convention for Today Which May Split

A Convention for Today Which May Split in Two.

CHARLESTON, S. C., September 4.—[Spe cial.]—There is going to be a lively time in Berkeley county, over the river from here, tomorrow, the date for the holding of the county convention. It is more than probable that two democratic conventions will be held one presided over by Smith, and the other by Stanland, both of whom claim to be county chairman. It is rumored that the Smith faction has enough Tillmanites to go with them to give them a quorum. The outlook is that two sets of delegates to the state convention and two sets of county officials will be nominated.

and two sets of county officians are in this city tonight, consulting. But thus far no plan of settlement has been arrived at.

The Charleston convention, which also meets tomorrow, will be very harmonious, entirely straightout, the Tillmanites having been routed at the primaries yesterday. There are only two contesting Tillmanites, and therefore from McClellanville it is said that the city Tillmanites were so sure of carrying four or five wards in the city, that they sent up word to McClellanville that if that precinct would send down two Tillmanite delegates they could carry the convention.

THE BLACK MAN RULES.

There Is No Room for a White Man in the Convention.

SAN ANTONIO, Tex., September 4.—[Special.]—This is the second day of the state republican convention, and the fact is more and more evident that the convention is the colored men's property, and they have already asserted their proprietorship.

The convention was called to order at 9:30 o'clock this morning, but the committee on credentials not height ready to report a precess.

o'clock this morning, but the committee on credentials not being ready to report, a recess was taken until noon, when, still not being ready, a further recess was taken until 3o'clock. The fight of the contesting white and negro delegations before the committee on credentials was long and bitter, but it resulted in defeat for the whites, who were rejected from the hall. The lily whites are greatly incensed, and are already taking the preliminary steps looking to the holding of another state convention, at which none but white men will be permitted to participate. S. J. Wright, of Paris, was chosen permanent chairman. The nominations of state officers will take place tomorrow.

THE DEMOCRATS GAIN Forty-Two Members in the Vermont Legis lature.

WHITE RIVER JUNCTION, Vt., September WHITE RIVER JUNCTION, Vt., September 4.—A revised and corrected compilation from 232 towns, embracing the complete gubernatorial vote of seven of the fourteen counties in the state, give Page, republican, 32,651; Brigham, 18,745; all others, 1,214; majority for Page, 12,692. The same towns in 1888 gave Dillingham 47,055; Shurtleff, 19,226; all others, 1,352; majority for Dillingham, 26,435. Decrease in the republican vote 14,402, and in the republican majority 13,763; decrease in the democratic 431. Only eleven towns are wanted to complete the total vote.

One hundred and ten towns in the second congressional district give Grout 15,812, Shurt-

One hundred and ten towns in the second congressional district give Grout 15,812, Shurt-leff 7,149: majority for Grout 8,383.

Ninety-two towns in the first congressional district give Powers 11,848, Mahoney 7,559; majority for Powers 3,925. The number of democratic representatives elected as per re-

turns is about sixty, or a gain of forty-two over

THE CONVENTION'S RIGHT To Enact a Constitution for the State Without Submitting It.

Jackson, Miss., September 4.—The constitutional convention met at 9:30 o'clock, a. m. Judge Wiley P. Harris, chairman of the judi-ciary committee, submitted a report from that ciary committee, submitted a report from that committee in response to an inquiry of the convention as to its constitutional right to enact a constitution without submitting the same to the people for ratification. The committee says the convention has the right and the theory that a vote of the people is necessary to its validity has no support in any principle of constitutional law and is merely a policy of doctrine which has in some states acquired authority from usage. The doctrine has never prevailed in Mississippi and has no sanction there from usage. The report was filed without action and the convention resumed consideration of the penitentiary question. The debate is still in progress.

Politics in North Carolina. RALEIGH, N. C., September 4.—[Special.]—Politicians here say today that W. J. Rogers, the democratic nominee for congress from the second district, is a strong man and entirely second district, is a strong man and entirely acceptable to the friends of Simmons, and to the alliancemen who supported Newborne Information from that district received at headquarters here is that Simmons, the republican candidate, is working hard to get a large element of disaffected negroes into line with him, and that his supporters claim his election as a certainty. It was ascertained today from leading and well-informed republicans that though John B. Eaves got the chairmanship of the state executive committee at the hands of the state convention, Dr. Mott has done hard work, and has eight of the fifteen members of the new executive committee. He is very well satisfied at this state of affairs. The fight between these leaders will, therefore, be continued.

Richmond's Democratic Club.

Richmond's Democratic Club.

Richmond, Va., September 4.—[Special.]—
There was a large gathering of the members of the Powhattan club, and officers were chosen for one year. President Belvin, who has served since the organization, begged that some one else be chosen, but the club would not let him retire, and he was re-elected by acclamation and accepted. The club now has 500 members, and among them are the very best democrats in the city. A committee was appointed to invite Hon. W. C. P. Breckinriige to address a mass meeting here next Monday night.

A GREAT MORAL SHOW.

OM REED AND HENRY CABOTLODGE

PLAYING A BRILLIANT ENGAGEMENT. The Speaker Telling the People How the Time of the House Is Wasted By Filibustering and Delivering Eulogies.

PORTLAND, Me., September 4.—The special car, in which Speaker Reed and Henry Cabot Lodge left Boston for Portland at 8 o'clock a. m. today, was attached to the provincial express, and was hung with two huge crayon portral's of Speaker Reed and draped over the rear platform with flags. At Haverhill the car was side-tracked, and Mr. Reed and his party were escorted in a procession to the railroad square, where Mr. Reed spoke for twenty-five minutes, and Mr. Lodge for a shorter time. The party then returned to the car, which was attached to the train for

Dover.

Between Haverhill and Dover the train stopped at Exeter and Newmarket. At the former place Mr. Reed showed himself to a small crowd and was cheered. At the latter place he was met by a Dover delegation. At Newmarket junction, Mr. Reed shook hands from the rear platform with all who could reach him in ten minutes.

At Dover he left the train for a near-by platform, where he and Mr. Lodge each spoke for fifteen minutes or more. Mr. Reed spoke briefly from the car platform at Salmon Falls, North Berwick, Kennebunc and Saco. On arriving here he received an ovation, and addressed a large concourse at the Union station. The city hall was crowded this evening with all the people that could flock into it, half an hour before time. Mr. Reed was advertised to speak. When he did appear the audience "rose at him."

EXTRACTS FROM REED'S SPEECH.

ENTRACTS FROM REED'S SPEECH.

He then delivered a carefully prepared speech of some four or five thousand words. Following are extracts from his speech:

Parties have their years of deprosion and their years of ox latation just as individuals have their inoments of depression and of good cheer. Parties have periods when they seem to have no other hope than the mere preservation of existence. Since 1874, when the republican party first fattered in its great duty of preserving liberty and equality before the laws for all citizens of the United States, a republican majority, but because by frauds too apparent to be denied by ballot-box studing, too notorious to be disputed, twenty-five seats in the house have been wrested from us under the open, defiant declaration that southern democratic white men shall not only rule the black man of the south, but the white won of the north. only rule to black man of the south, but the white man of the north.

man of the north.

ALLUDES TO FILIBUSTERING.

Two years ago, Mr f e d continued, under tremendous stress caused by the battle set in array by free-traders, the republican party triumphed by free-traders, the republican party triumphed so signally that even the cohorts of fraud were routed, and, after a few ineffectual struggles to count us out, we had the house by the smail majority of five, instead of our real majority of twenty-five. Long before congress had a sembled the air had been resonant with the loopes and threats of the minority, with declarations that they were to rule, in utter disregard of the will of the people of the United States. At the very worst, no measure should pass which did not have the sanction of their high approval. If any man here thinks they reckoned without their host, that they had no foundation on which to build their hopes and threats, he knows little of the deep-laid schemes of many years to render the republicans powerless whenever they should get control. For years rule has been piled upon rule and decision upon decision to render legislation dependent upon the sufferance of the minority. Filhustering lurked in every line. The power of obstruction was "without limit. You will naturally ask why it was that those who most of the time had a majority should so strengthen the minority. If you will consider the nature of the two parties the cause cannot escape you. The democratic party wants no legislation. It is not charged with the progress of the world. All the southern men, who control the party, want or ask for is to be let alone. When the republican party comes into power it has work to do. If that action can be prevented what more should the southern democracy desire. Hence, all their plans, whether in power or out of power, are centered in obstruction.

Now, the house of representatives is not a body quick to do business under any set of rules. Its large numbers, and the diverse interests they represent, will always make it slow and cumbersome. But a system which enabled one member to hold the whole house at bay until the going down of the sun, and then to hold it until physical exso signally that even the cohorts of fraud were

the whole house at bay until the going down of the sun, and then to hold it until physical ex-haustion set it free; and one-fith to hold it for-ever, was evidently a system which rendered elec-tions useless, and called a halt to civilization it-self. Of what use was it to summon into the field an army of orators to explain the question of nexts notice. party policy.

THE MINORITY HAS NO RIGHTS.

Of what use was it th ata great throng of journals set themselves to explain to the people the needs of the hour? Of what use was an election itself, that grand culmination of power of citizens, if, after all, nothing could be done without the itself, that grand culmination of power of citizens, if, after all, nothing could be done without the sanction of the beaten party? What statesman could there be so foolish as to battle for power with the responsibility, when he could have the same power without the responsibility? What kind of a fight is that to go into where the victim will be victimized and the conquerer powerless? Says Foran: "Dost thou think, 0, man, that we created the heavens and the earth in jest?" Are elections a farce, and is the government by the people a juggle? Do we marshall our tens of millions to the polls for sport. If there be anything in popular government it means that whenever the people have elected one party to take control of the house or the senate that party shall have both power and responsibility. If that is not the effect, what is the use of the elections? It was with far other ideas of public duty that the minority met as at the opening of the session. Not only were no measures to pass which did not have their approval; but no rules, even of procedure, were to be permitted except those which seemed suitable to the beaten party.

A WORD OR TWO ABOUT RULES.

So we began life without any rules. The constitution says the house may determine the rules of its procedure, and does not say that it must. After two months' time the opposition found that under the parliamentary law which had been built up by the American people in consonance with their institutions, public business was going on every day without their consent, and they began to clamor for the very rules they had denounced. I need not describe to you the scenes of disorder which were preliminary to the establishment of sound business principles in the house. It is enough to say that the good work was done, and the house of representatives has taken a large stride towards business and the performance of duty. Will you, my old friends and neighbors, permit just one word which is purely personal. Any time those last eight months, I have been the subject of much indiscriminate praise and much indiscriminate blame. One is just as much deserved as the other. Great events do not turn upon one man. The house of representatives was ready and 1 ripe for a change, and the people stood ready to approve. What all the world wanted was easy to do. I am not greatly proud to be speaker of the house, but I am proud, with all my heart, to be one of that magnificent majority of the house of representatives of the fifty-first congress, which, for nine long months, has never, for one moment, faitered in its duty.

When we cleared the decks for action there was plenty of work to do, and we have done it to the full measure of satisfaction, we have achieved all that the republican party promised and more. Most platforms are but glittering generalities, good enough for the campaign, but our last platform has been treated by the house of representatives like a deed of trust.

Mr. Reed enumerated measures for which the A WORD OR TWO ABOUT RULES.

ABOUT THE ELECTION BILL Mr. Reed enumerated measures for which the house claimed credit, the administrative customs bill, the tariff bill, the silver bill, and then coming to the federal election bill, he said:

suffrages of millions. It will enable votes to be cast and counted as cast.

What an enormous hubbub has been raised about that simple bill. There has been nothing like it since Walter Scott described the uprising of the virtuous people of Alsatia on the approach of the sheriff. What is this bill on which so many violent epithets have been rained? It is a simple proposition to have United States supervisors to see that United States elections of United States officers shall be honestly conducted; that all honest votes shall be cast and honestly counted as cast. If there be any man in the country who opposes the bill there will not be many years before he will look tilte those who proclaim the divine origin of slavery. That the democrats now denounce, with violent epithets, a republican measure, is no new fact in their history. So persecuted, they, the saints, when Abraham Lincoln proclaimed that this land should not be permanently half free and half slave; the democracy of my younger day, all declareightathe said so because he wanted his aister to marry a nerro. So when the republicans of our day proclaim that in a republic one million of voters can never be permanently disfranchised the democrat of our day shouts "negro domination" and "bayonets."

Mr. Read then proceeded with his enumera-

Mr. Reed then proceeded with his enumera-tion of the Oklahoma bill, and bills for the tion of the Oklahoma bill, and bills for the admission of new states, the Conger lard bill, the meat inspection bill, the bankruptcy bill, the original package bill, and the Louisiana lettery bill. He described the obstacles under which all this work was done, and the waste of time caused by faction opposition. In this connection he said:

which all this work was done, and the waste of time caused by faction opposition. In this connection he said:

We were forced to spend more time on contasted elections than any democratic congress, because the fraudulent certificates came from the southern states, and we were obliged to consume the time of the house in giving those members seats who would have had the certificates in the beginning had they been fairly treated. So justly were the democrats treated by the returning difficers that not a single republican seat has been contested. Our loss of time from contested elections will not be less than twenty day:

TOO MUCH TIME WASTED.

One other cause of the loss of time will be a surprise, perhaps, to the community at large. No man would regret more than I to be thought wanting in all proper respect for the dead and all proper reverence for the departed comrades and for the feelings of surviving friends, yet the method by which the house shows its respect and pays its reverence, is very costly to the nation. Since the election of the present house ten members have died and one senator. Among them inave been the most famous men of the house—William D. Kelley, the great champion of protection; Samuel J. Randall, the heart of oak and will of iron, the strongest force in half a century, and Samuel Sullivan, Cox, at once brilliant and laborious.

When we have paid due reverence, and spoken the proper culogy over these and their companions, not less than twenty-one working days will have to be counted. This means almost an entire month of time. When John Bright died, the English house thought it could best honor his memory by going on with the business of the country.

Tired of Roll Calls.

These losses which I have enumerated could not,

These losses which I have enumerated could not, perhaps, be helped without greater reforms than can be hoped for in many years, but what is about to be described could be avoided by either the can be hoped for in many years, but what is about to be described could be avoided by either the commonest patriotism or healthy public sentiment in the house. It ought to be known all over the United States that with 330 members it takes twenty-five minutes to make a roll call. Our ancestors when they established in the constitution the provision for the yeas and mays did not know how fearfully they were wasting the time of unborn generations. Now the sessions of the house two years ago lasted one month and a half longer than the present session thus far. During that session, of two years ago, there were 226 roll calls, of which eighty-six were recorded, during the long filibuster against the direct tax bill, leaving but 140, which were seemingly legitimate. I say these 140 were seemingly legitimate, for I have no doubt that 100 would have fully compiled with the demands of the constitute. One hundred roll calls would have been the than ample for all proper purposes for the whole of this session, and yet we had 400. Three hundred of these have been utterly useless, a mere wanton waste. The legislative day, exclusive of the reading of the journal, is a scant five hours. Three hundred roll calls, then, mean twenty-five legislative days wasted in the mere useless calling over of names, and all done to waste time, with public business unfinished.

THE "GREAT" DEEDS OF THE HOUSE.

waste time, with public business unfinished.

THE "GREAT" DEEDS OF THE HOUSE.
But in closing what I have had to say, it would
not be just to rest the claims of the house upon
even a catalogue of its great deeds. What the
house has shown the country that any house can
do is well worth a prince's ransom. Henceforth a
promise cannot be excused except by performance. Henceforth great measures cannot be lost
and nobody know what has become of them.
Party responsibility has begun, and with talso the
responsibility of the people, for they can no longer
elect a democratic house, and hope that the minority will neutralize their action, or a republican
house without being sure that it will keep its
pledges. If we have broken the precedents of a house without being sure that it will keep its pledges. If we have broken the precedents of a hundred years, we have set a precedence of another hundred years nobler than the last, wherein responsibility will wait on power, and wherein the people, with the full knowledge that their servants can act, will chose those who will worthily carry out their will.

COOPER DID NOT APPEAR,

WASHINGTON, September 4.—The special louse committee investigating the charge against Pension Commissioner Raum promptly at 10 o'clock this morning and sat for half an hour awaiting the presence of Mr. Cooper. Mr. Lewis, the only democratic member of the committee in attendance, said tha Mr. Cooper would not be present and as Mr. Goodnight, his colleague, was not in Washington he was in an embarassing position and would like the committee to adjourn until Mr. Goodnight returned. The committee showed ome impatience at the failure of Mr. Cooper to be present. Finally an order was made for a subpena for Cooper, and also requesting him to be present with his witnesses and evidence next Monday, to which day the committee adjourned.

Physicians Deem Mrs. Woodworth's Alleged

Power Pernicion

Power Pernicious.

St. Louis, September 4.—Two physicians have filed complaint in the probate court for an inquiry as to the sanity of Mrs. Woodworth, the noted evangelist. Mrs. Woodworth has been holding meetings here for several months, and certain members of her audience became possessed of what she terms "the power." Others think the peculiar mania and bodily state is due to hypnotism exerted by Mrs. Woodworth, and that its effect is most pernicious. The basis for the inquiry lies in the fact that Mrs. Woodworth has stated that while in this state she has conversed with the diety and descended into hades. Five days is given her in which to prepare for the trial.

ASLEEP FOR A WEEK. The Probable Result of a Mania for Eating

The Probable Result of a Mania for Eating Brown Paper.

Moncton. New Brunswick, September 4.—
Etta Simpson, aged seventeen years, went to sleep a week ago Sunday, and has not yet awakened or taken any nourishment. Miss Simpson has for some months had a mania for eating brown paper, and would consume a large bag, such as used in grocery stores at a single meal. She has eaten scores of brown paper bags, and it is supposed this mania has something to do with her illness. About a year ago she slept for five days, but was awakened while being bled by her medical attendants.

house claimed credit, the administrative customs bill, the tariff bill, the sliver bill, and then coming to the federal election bill, he said:

There was also another promise to be kept, made long ago and often renewed. For years the republican party had declared, most righteously, that there could not be in the republic a duty more sacred than the duty of uphoking the rights of every citizen to participate in the government. Who has forgotten the words of that great soldier, so soon to lie among the unforgotten brave on the heights of Arlington?

"The people have made up their minds that they will have a loyal government, an honest ballot and a fair count."

The lungury to Cotton.

RALEKIH, N. C., September 4.—[Special.]—The injury to cotton by the rain is becoming great. Farmers who arrived here today from Johnston, an important cotton-growing county, says an extensive reduction of the expected crop will result. The rains of August hurt the crop which was forming during the earlier part of that month, and that rust, which attacked the cotton earlier than usual, has badly affected the top crop. The same statement applies to nearly all this section, and while the crop will be far larger than the last one, yet it will fall below the July and August estimates, which were that it would be the best crop ever grown. The crop is opening very freely and will be picked early.

HUNTING FOR RUBE.

DETECTIVES AND BLOODHOUNDS ON TRAIL

OF THE NOTORIOUS TRAIN ROBBER. A Report that He Was Seen in Milton, Fla. Causes Great Excitement-Several Parties in Search of Him.

JACKSONVILLE, Fla., September 4.-A Pen-

sacola special to The Times-Union says the Flomaton train robbery has produced intense excitement here. Rube Burrow was reported to have been seen at Milton, twenty miles east of this city, yesterday, and at 2 o'clock a special train, with Superintendent Fisher, Route Agent Arnold, several express company detectives, and a posse of deputy sheriffs from Alabama, under Sheriff McMillan, passed through this city for Milton. Deputy Sheriff Tom Cusache, of this county, joined the party here with a posse of six man. Patrolman Wilson. with a posse of six men. Patrolman Wilson, of the police force of this city, with a posse of six men, left here yesterday and is coming down the Escambia river from Bluff Springs in a boat, and several parties with bloodhounds are scouring the country from the scene of the robbery down the river to the swamp. Detectives and deputy sheriffs, who passed through the city today, had with them five blood-hounds, and if Rube Burrow is in Florida it is thought he will be captured by tomorrow night. It is certain beyond any possible doubt now that it was he who committed the robbery, assisted, it is thought, by the noted desperado of Santa Rosa county, Burrell Mar-

STEINER BROUGHT BACK. Ward Politics Ruined a Once Promisent

Merchant.

Montgomery, Ala., September 4.—[Special.]—Victor Steiner, late treasurer of the Montgomery fire department, and charged with embezzling the funds of the department, was brought to this city last night, having been arrested by detectives at Halletsville, Tex. Steiner left the city mysteriously not quite a year ago. When his defalcation was discovered, his bondsmen, who made good the shortage, offered a reward of \$200 for his arrest. Steiner was formerly one of the most prosperous and successful merchants of Montgomery. Merchan

SWUNG TO A LIMB.

A Negro Brute Taken from Custody by a Mob and Hanged. Mob and Hanged.

New Orleans, September 4.—A Water Valley, Miss., special says: Last night a negro, named Rogers, decoyed Mrs. Murray from her home on the pretense of helping to rescue her husband from roughs, whom Rogers said were ill-treating him in a lonely part of town and assaulted her, bruising her badly. The negro was arrested later, but was taken from custody by a mob and hanged to a tree. Mr. and Mrs. Murray are from Iowa and have lived here two years.

A Colored Desperado Arrested. A Colored Desperado Arrested.

BIRMINGHAM, Ala., September 4.—[Special.]

Henry Willingham, the worst negro desperado
in the state, was captured here today by a
deputy sheriff. He resisted arrest and was
shot twice, one of the wounds being a very
serious one, which may prove fatal. Willingham is wanted in Shelby county, Alabama, for
murder, and in Talladega, Ala., for an attempt
to murder his wife. He has also committed a

And Now Neither May Get the Girl. And Now Neither May Get the Girl.

San Antonio, Tex., September 4.—Information has reached here of a desperate duel, which was fought near San Augustino. Fred Clark and Julius Jones, two young cowboys, became enamored with the same girl, and resolved to settle the matter by fighting a duel with shofguns. The event came off and Jones received a load of buckshot in his bowels, killing him. Clark was arrested. ing him. Clark was arrested

No Arrests Have Been Made

SAN ANTONIO, Tex., September 4.—[Special.]—James Krimer, a young man, went to the home of Sanuel Johnson, a prominent farmer of Falls county, this morning, and assembled Leaven so, a result of some old grades. saulted Johnson as a result of some old grudge between the two. Johnson drew a pistol and shot his assailant, killing him. No arrest has

THE CENTRAL STRIKE.

The Blockade Raised, But Attempts to Wreck Trains Are Being Made.

ALBANY, N. Y., September 4.-General Car Accountant Ewings, of the New York Central road, was in the city today. He said the blockade which had existed in this vicinity, was effectually raised, and that everything was now running smoothly on the Mohawk and Hudson River divisions.

Pinkerton says that there are still 460 of his men stationed at points between here and Schenectady. The men will be kept on patrol duty until the strike is declared off. The strikers who have not returned to work, and who are occupying the railroad company's houses, have been notified to vacate within thirty days. There are about one-third of the number of men usually employed now at work in the West Albany shops. Each day finds a few of the weak-hearted knights returning to work in the shops.

ATTEMPT TO WRECK CARS.

Superintendent Bissell said tonight that a dastardly attempt to wreck a portion of a freight train was made this afternoon at the Van Wert street crossing, in this city. As the train was proceeding west at this point somebody succeeded in parting the couplings of the second rear car from the rest of the train. The two cars thus separated gained speed as they rolled down the hill at this point. As they passed through the upper part of the yards, a brakeman observed them and succeeded in boarding them as they rolled on the upper railroad bridge and stopped them within 100 feet of the open draw. The draw had been opened to allow the passage of one of the Tracy boats, which was just passing through when the cars were brought to a standstill. Had the runaways continued on, they would have plunged down on a vessel which was freighted with human lives. Superintendent Bissell says the company had as yet obtained no clue to the party who parted the coupling.

UNEASINESS ABOUT A TRAIN.

The train from New York, due here at 11:30 p. m., had not been heard from since it left Hudson on time. It is now two hours late. No information can be obtained at the station here. Some uneasiness prevails concerning it.

The Carpenters' Strike Virtually Ended.

Chicago, September 4.—Between 300 and 400 men of the striking carpenters returned to work today, and the strike is practically at an end. Various questions are mooted, however, among the strikers. In some quarters, however, it is hinted that the non-union men will be persuaded to join the union in order to get better wages, and that the fight will be resumed within ten days. It is generally thought, however, that the trouble is over till next spring, when a general walk-out is looked next spring, when a general walk-out is looke

Obstructing the Cars.

PITTSBUEG, Pa., September 4.—A special from Wheeling, W. Va., says: This morning an attempt was made by the company to run their electric street cars with men who had taken the places of strikers. One car was stopped and held for an hour, while 500 men hooted and threw stones. Another car started and met with the same treatment. The lines are now obstructed in hundreds of places with trees, stones, boxes, railroad ties, etc., and any attempt to run cars will cause settings trouble.

A NEW RAILROAD SCHEME Which is to be of Benefit to Kentucky's

Which is to be of Benefit to Kentucky's Boom Town.

CHATTAROOGA, Tenn., September 4.—
(Special.]—D. H. Arnold, of The Middlesborough News, is in the city looking after the interest of the proposed railroad from Chattanooga to that point. The road, Mr. Arnold believes, will be built. It has no connection with either the Louisville and Nashville of the Western and Norfolk systems, but is an independent line. The general purpose is to extend the line from Middlesborough northward and connect with Huntington's Chesspeak and Ohio. The route will lead in a direct line from Chattanooga to Kingston, and then follow the course of the Clinch river to a point this side of the mountains from Middlesborough. The great difficulty hitherto in the way was in getting through Camberland Gap, the Louisville and Nashville and Knoxville roads using the same tunnel, and the projectors of the Chattanooga line were unable to make satisfactory arrangements to get through the tunnel. This difficulty is now surmounted by an entrance through a gap or surface grade some miles south of Middlesborough.

ANOTHER HEAVY FAILURE.

Sawyer, Wallace & Co. of New York, Make an Assignment.

Sawyer, Wallace & Co., of New York, Make an Assignment.

New York, September 4.—Sawyer, Wallace & Co., exporters of breadstuffs and cotton, and dealers in leaf tobacco, at 18 Broadway, made a general assignment today to Marshall Ayres, without preferences. The assignment was filed shortly before the closing of the county clerk's office and the news, when it reached the street, created a great sensation.

The cause is losses the firm has sustained in their foreign option business. The firm has branches in nineteen or twenty European cities. In the pork deal last January the firm is said to have sustained losses of \$1,000,000. Claims for these losses against European speculators are among the nominal assets.

It is estimated that the sum total of the nominal assests will reach \$1,750,000, among which was included \$1,000,000 lost in the pork deal. It is believed that they have protected their interests in this country, and that their chief losses, which may reach \$1,500,000, will be in London, and mainly on their pork dealings. But their business has many ramifications.

MOUNTAINS OF SILVER,

Which Will Enrich Several Virginia Capl-talists.

Which Will Enrich Several Virginia Capitalists.

RICHMOND, Va., September 4.—[Special.]—Messrs. James B. Pace, James A. Dooley, E. D. Christian and T. M. Logan, of this city, condrol one-half of the \$5,000,000 capital stock of the company just formed to develop the ore beds about thirty-five miles from Seattle, Wash., which are reported to be the richest in the world. These gentlemen recently made over \$100,000 each by the sale of a railroad in Washington, in which they were largely interested. These ore mines, which are claimed to be the most valuable ever discovered, were found, the land was purchased and the company formed before anybody except those interested knew what was going on. The lode has been traced \$\frac{1}{2}\$ miles, and all of this has been taken. In width it averages about 14 feet. It is c'aimed that the ore will assay fifty ounces of silver and 60 per cent lead to the ton. The company will spend the winter developing the ledge, and next spring the reduction works will be started.

ALL QUIET IN GUATEMALA.

A Telegram from Minister Mizner—No Reference to the Reported Attack.

Wasnington, September 4.—A telegram has been received at the state department from Ministr Minner, at Cui'o nala, saying that the forces are being rapidly disbanded, and that peace will be formally declared next week. He says nothing in regard to the Barrandia incident, and makes no mention whatever of the reported attacks upon himself.

ever of the reported attacks upon himself.

North Carolina's Steel and Iron Company
GREENSBORO, N. C., September 4.—[Special.]—Your correspondent has at last been
able to get some inside facts in regard to the
action of the directors of the North Carolina
Steel and Iron Company. Captain J. J. Newman resigned the general management. The
capital stock was reduced from \$1,000,000 to
\$350,000. The price to be paid for the Ore
hill property is to be \$50,000, instead of \$250,000. Of the \$00,000 paid for Ore hill, S. H.
Wiley is to receive \$75,000, and J. J. Newman
\$15,000; and finally, that the contract should
be let and the furnace built as soon as possible.

Fire in Anderson, S. C.
ANDERSON, S. C., September 4.—[Special.]
The handsome residence of Dr. M. C. Parker,
west end, was destroyed by fire this afternoon.
The fire originated in a clothes closet on the
upper floor, supposed to be from matches. The
ceiling and roof were ablaze before it was discovered, by the immates of the house. The
alarm brought the firemen to the rescue immediately. The contents of the lower story,
with handsome mantles, doors, sash, etc.,
were saved. The house was a frame building,
and burned rapidly, so only the frame of the
lower story was saved; after a hard fight. The
whole will have to be torn down. Fire in Anderson, S. C.

Accident on the Baltimore and Ohio. Accident on the Baltimore and Ohio.

PITTSEURG, September 4.—A special to the Chronicle-Telegraph from Mannington, W. Va., says: Early this morning a freight train drawn by engine No. 1,208 ran into the pickup on the Baltimore and Ohio, just east of Mannington, causing a terrible wreck. Engineer Cordell and an unknown man were killed and sixteen cars piled on top of each other. The wreck took fire and the cars and contents were almost totally destroyed. Traffic was delayed several hours. delayed several hours.

The American Bankers' Associa

The American Bankers' Association.

SARATOGA, N. Y., September 4.—At today's session of the American Bankers' Association, Edward Atkinson, of Boston, addressed the association on the topic "Credit as Affecting Prices;" William L. Trenholm, ex-comptroller of currency, followed with an address on "The Bonds of Bank Officers and Employes;" Jay L. Terry, of St. Louis, expounded the national bankrupt law, and Benjamin Wright read a paper on "Banking on the Pacific Coast."

Brought In the Survivors. Brought In the Survivors.

Lewes, Del., September 4.—The British steamer, Hay Green, from Huelva, for Philadelphia, has on board the crew of the Swedish bark, Anna Maria, from Mobile, July 29th, for Wolgast, which was dismasted in a hurricane August 30th, 200 miles north of Bermuda. Captain Motensen was dead on board. The remainder of the crew were saved in an exhausted condition. The bark was fired when the crew abandoned her.

Burning Out the Greeks. Salonica, September 4.—Fires broke out almost simultaneously in four different parts of the town today and did a large amount of damage. The Greek and Jewish quarters were devastated. It is supposed the fires were set by incendiaries. The government at Athens will send too war ships to this port to protect Greek subjects.

The Destruction of Salonica. SALONICA, September 4.—All consulates, the cathedral and most of the public buildings have been destroyed. Twelve thousand houses are in ruins and the fire is still burning. TELEGRAPH BREVITIES.

Floods have cut off all communication between Bohemia and the Bohemian spas.

It is now reported that the liabilities of Potter, Lovell & Co., of Boston, will aggregate \$5,000,000

WILL COLONEL COX RUN

4 REFORT THAT HE WILL OPPOSE COLONEL LIVINGSTON.

Investigation Shows that He Is Being Press By His Friends, But He Does Not Confirm the Rumor.

The report has reached THE CONSTITUTION from several sources that Colonel Albert Cox may make the race for congress against onel L. F. Livingston, the nom district.

Rumors of this kind were heard out of town, and a gentleman who came to the city from Rockdale county yesterday, said that it was talked about that neighborhood. Anothe rumor came through sources at Rome, whither

it seems to have gone from Atlanta.

The rumor appeared to have spread so far that the color of probability was given to it, and THE CONSTITUTION went to headquarters to investigate the matter.

Colonel Cox was seen in his office and asked whether there was anything in it. He ad mitted that he had been approached on the subject, but said he had repeatedly up to this time, said he was not a candidate. deprecated any publication of the mat-ter, as he said there was nothing now to publish, and he did not know that there would be. Colonel Cox declined to talk for pullication, but he did not absolutely deny the possibility of his making the race, though be left the impression that it was improbable, if not impossible. Said a friend of Colonel

"If Livingston makes the democratic party first and after that the alliance, I would see no reason for personal opposition to him as an individual merely. Of course, the caucus would kill the subtreasury bill.'

HOW THE RUMOR STARTED. The rumor doubtless arose from Colonel Cox's well-known opposition to the subtreasary bill, as expressed in recent speeches.

He delivered two speeches in August which placed him clearly in opposition to the subtreasury scheme and any agitation that arrayed

He owns a plantation in Morgan county, and was invited by the Panola Guards, of Panola, In that county to address them at their barbecue on the 7th of August. He went and delivered a speech, which was a tribute to the confederate soldier in war and peace. He especially referred to the victories of peace. which have been won in the twenty-five years since the war, through the heroic efforts of old soldiers in the development of agriculture and

other important resources of the country. Thereupen he urged the importance of absolute internal quiet and rest as a condition precedent to healthy and rapid development.

That closed the first speech.

The second speech, made at the colt show In Madison on the 29th of August, he began at the point where he ended the Panola speech, deprecating the action of alliance as tending to create dissension among brethren. In that speech, also, he took up the subtreasury plan and criticized it as undemo-The democratic party he argued, was opposed to centralization and in favor of simplicity in government. The subtreasury plan on the contrary, he contended, was a more pronounced type of centralization than anything the republicans had proposed.

This speech, made in the presence of alliance

men, naturally created a sensation, and no doubt the rumors about Colonel Cox as a congressional possibility grew out of the talk occa-

COLONEL LIVINGSTON TALKS. He Denies Some Rumors-Hasn't Thought of the Speakership.

"Thaven't the slightest idea where such a thing could have originated, and there isn't the slightest ground for any such rumors."

That was Colonel L. F. Livingston's reply when his attention was called to the run that he had an eve on the speakership of the

national house of representatives.
"I didn't see that rumor until tonight, when my attention was called to it. There is absolutely nothing in it. The idea of being a cante never entered my head."

Colonel Livingston was decidedly emphatic

When asked the question which, it is understood, is being asked alliance candidates for congress in all the districts, namely: "Will you abide by the decisions of the democratic rancus in Washington?" Colonel Livingston

"Why, of course, I will. I am a democrat. He said that he was preparing for the next Issue of The Southern Alliance Farmer an editorial on that line, which would show that all the alliance candidates for congress were democrats, tried and true, and could be counted upon to act as such at all times.

FULTON COUNTY DEMOCRATS. The Work of the Coming Campaign to

Begin. Fulton county democrats have a racy out-

Fulton county democrats have a racy outlook ahead of them.

'The coming campaign promises to be very lively, so far as local matters are concerned.

The candidates for the various county officers are bobbing up serenely all over the county, and the probabilities are that there will be lively times in Fulton before the campaign is over.

The following call has been issued by the democratic executive committee!

DEMOCRATIC COMMITTEE MEETING.

There will be a meeting of the democratic executive committee of Fulton county at the courthouse Wednesday, September 10th, at 12 m., for the purpose of fixing a date for holding a primary to nominate county officers, and to transact such other business as may come before the committee.

WALTER R. BROWN,
LEWIS W. THOMAS, Secretary. Chairman. So soon as this meeting is over, the skirmish lines will become regular lines of battle, and there will be no rest for the candidate until the storm is over.

A MODEL PRIMARY.

Batisfaction in Macon Over the Result of

MACON, Ga., September 4.-[Special.]-There have been some very unfair primary elections in Bibb county, and frequently the best candidate has been defeated by "repeating" and other illegal votes nomination of members for the Georgia legislature which occurred here on sday is pronounced to have been the fairest and best conducted primary election ever held in Bibb county, from the fact that the democratic executive committee prescribed certain rules that made "repeating" al impossible, or at least checked practice to a very great extent. The results of Tuesday's election were so satisfactory the executive committee met today and adopted the same rules for future primary elections.

Colonel H. G. Wright From Effingham. Guyron, Ga., September 4.—[Special.]—
The primary to nominate a candidate to represent Effingham in the next legislature came off yesterday. Colonel H. G. Wright, who was run as the alliance candidate, had no opposition. The executive committee met at Springfield today to consolidate the vote, but, a quorum not being present, they adjourned to Tuesday next. The vote was light, numbering about 170.

The City Election in Eatonton.

EATONION, Ga., September 4.—[Special.]—
The following ticket was elected here in the city election, viz.: Mayor, I. H. Adams, Jr.; aldermen, W. B. Wingfield, G. W. Adams, G. W. Nelson, E. B. Ezell, D. B. Nisbet and W. H. Hearn; marshal, Phil Sanford.

Mayor Charles D. Leonard refused re-election, having held the position for the past three or four years, during which time he has made Eatonton a good officer.

INDIFFERENT TO HIS FATE. Negro Put on Triel and Sentenc

Death.

ATHENS, Ga., September 4.—[Special.]—A speedy, and conclusive trial was that of Ed Morrison, the negro who killed young Henry Hunter, in Madison county, a few weeks since. Eighteen minutes, argument for the defe sixteen for the prosecution, twenty for the judge's charge, twenty for the jury, and then

One hour and fourteen minutes after the vidence closed the jury returned a verdict of guilty.

It was one of the quickest trials on record, and yet gives perfect satisfaction. The judge sentenced him to be hung on October 17th. If the negro could have been caught just after the murder, it goes without saying that he would have been lynched, and, indeed, a great many expected that such a course would be pursued after he was brought back to Madison county. Such fears were groundless, and the law was allowed to take its course. And this time there was not much of the law's delay. His case was handled by Colonel R. H. Kinne brew, of Danielsville, while Judge A. Mitchell, of Athens, led the prosecution. The evidence showed that it was willful murder, and that nothing save the negro's life could atone the crime, so he will swing. He takes things coolly and seems indifferent to his fate.

HE GOES HOME.

Lawyer Hall Gives Bond, and Goes Back

to Eastman. MACON, Ga., September 4 .- [Special.]- Colonel Luther A. Hall, who has been serving a term of five months in the Chatham county jail for contempt of the federal court, was brought to Macon by Deputy United States Marshal Crawfordson. Mr. Hall's sentence for contempt expired on September 1st. As soon as he was released he was rearrested on a charge of perjury, alleged to have been com-mitted in the federal court during his trial for mitted in the federal court during his trial for contempt. He was carried before Commissioner Erwin and required to give bond in the sum of \$5,000 for his appearance at the October term of the federal court, to answer to the charge of perjury. Immediately after his release on bond, Colonel Hall returned to his home in Eastman in company with a number of friends.

from Dodge county.

It is the general opinion and sentiment in Macon that Hall has been punished enough and that he will never be convicted on the present charge. Another complaint for con-tempt has been filed against him by reason of his having written certain letters to parties in Eastman in regard to the disputed lands. It is not believed that this last charge will stand either; in fact it is thought the court will re-fuse to allow a suit on the latter point.

Eastman, in company with a number of friends

SAVANNAH'S PROSPERITY.

The Business of the Past Year Unprece

dented in the City's History. SAVANNAH, Ga., September 4.—The Savan nah Morning News will issue its annual trade and Morning News with issue its annual rade edition tomorrow. In its summary of Savannah's commerce for the year ended August 31st, it shows that the business of the city was unprecedented in her history. Her total receipts of cotton reached 956,517 bales, an increase over the previous year of 128,000 bales, making her easily the second cotton port of crease over the previous year of 128,000 bales, making her easily the second cotton port of America. A computation of values of the year's trade shows a total of \$133,-800,000, an increase of \$25,450,000 over the previous year. The value of naval stores receipts was double that of the previous year, and her increase in foreign exports over the year before is \$12,000,000, while the increase in total tonnage entering to port was 200,000 tons, Her increase in population in the last decade was 41 per cent. Pretty much all was acquired in the past two or three years. was acquired in the past two or three years. The increase in jobbery trade was simply wonderful. Her merchants are exceedingly prosperous. There is a very large number of new buildings in course of construction. The outlook for this year is very favorable, even better this year than last.

TEN THOUSAND DOLLARS DAMAGE a Fire Which a Cigarette - Fool Started.

AUSTELL, Ga., September 4 .- [Special.]-The second disastrous fire within two weeks occurred here this evening, destroying all the warehouses, stables and almost the entire stock of chairs on hand of the Austell chair factory. Loss \$10,000. No insurance. The fire origi nated by one of the painter's carelessness lighting a cigarette and dropping the match in

CEDARTOWN'S PUBLIC SCHOOLS. Professor Harris Has Everything Arranged

in Perfect Shape. CEDARTOWN, Ga., September 4.—[Special.] The public schools here opened Monday morning with 212 pupils. This number has been increased to 230, and the prospects are that the school will soon reach 300. A better corps of teachers could not have been procured. Professor Harris is superintendent. Professor H. L. Sewell is principal of the high schools and fessor Harris is superintendent. Professor H. L. Sewell is principal of the high school, and Misses Percia, Bunn, Pellum, Border and Lela Wood have charge of the grammar and primary departments, with Mrs. H. L. Sewell supernumerary. The ability of the teachers and the enthusiastic support of the patrons of this school indicate that it is destined to be one of the finest public schools in northwest Georgis

SUCH A KILLING OF SNAKES.

The Invasion of a Rattlesnake Den in Thomas County.

THOMASVILLE, Ga., September 4.—[Special.]—Quite a lively rattlesnake den was discovered and exterminated on Mrs. Jane Parramore's plantation, six miles from the more's plantation, six miles 'from the city, one day this week. The parent snake was killed, and when placed out and measured, was found to be nearly six feet long, and carried fourteen rattles, and the usual button was found. When the den was fully explored sixteen young rattlers, measuring 20 inches in length, and having a button and a rattle each, were found. All were killed. Seventeen "diamond backs" in one day is the champion snake story of this section, but truth is always stranger than ficsection, but truth is always stranger than fic-

The Opening of Sparta's Public School. Sparta, Ga., September 4.—[Special.]—The public school has opened handsomely. Nearly 100 pupils are enrolled, notwithstanding the inclement weather. A matriculation fee of \$5 per annum has been fixed for each pupil, white and colored. Professor W. T. Dumas, as principal by the professor with the control of the professor with the profe cipal, has been thoroughly occupied with the organization and classification of his pupils in organization and classification of his pupils in the three departments of the school. The first assistant's place, made vacant by the re-tirement of Mrs. Amelia W. Harris, was filled by the election of Miss Helen Pardee, an ac-complished Christian lady, with large and suc-cessful experience as a teacher. Altogether the outlook is favorable for 125 pupils, and a year of great success in the Sparta public school.

Notes from Thomaston.

Notes from Thomaston.

THOMASTON, Ga., September 4.—[Special.]—Mr. T. M. Matthews and bride returned last night from an extended tour through Canada and the New England states.

Work on the Macon and Birmingham road is nearly completed through the town, and we expect soon to hear the whistle blow.

The [city is growing lively. There are no vacant houses, and a growing demand for more private and business houses.

Crops in this section are good, and cotton is coming in rapidly.

Labor Becoming Scarce. ALBANY, Ga., September 4.—Labor is becoming scare and unreliable in this section. The rapidly opening bolls of the staple cause a great demand for cotton-pickers. The town is scoured for idle hands and frequently a dozen or more great wagons can be seen early Monday mornings filled with laborers en route from the city to the cotton fields.

Another Victim of the Gin ALBANY, Ga., September 4.—[Special.]—Dr. T. J. I. Pattillo, a prominent planter of Lee county, living at Adams station, had his arm caught in a gin today, and terribly lacerated. He was brought to Albany and his hand had to be amputated.

SHOT AND KILLED.

ROME FURNISHES A FRIGHTFUL TRAGEDY.

Two Business Partners, James E. Cothran and Joseph Weber, Disagree, and a Resort Is Had to Pistols.

ROME, Ga., September 4.—[Special.]—James E. Cothran shot and killed Joseph Weber at 2 Cothran shot four shots into the body of

Veber with a number thirty-eight calibre pistol, instantly killing him. THE PRINCIPALS IN THE CASE James E. Cothran is a member of one of the most prominent families of Rome, being a young man twenty-four years of age.

He is a married man, and has a bright,

pretty wife and a young baby. Joseph Weber is a German, formerly residing in Atlanta. He moved to Rome six years ago, and has been carrying on the business of tailoring since he came here.

THE CAUSE OF THE TRAGEDY.

In May last, Cothran bought an interest in the tailoring business with Weber and business prospered. For the past several days there have been financial complications between the partners. Cothran managed the books. Weber was not satisfied with the way they were run, so they decided to dissolve part nership. Weber had Mr. W. Moore, of Printup bank, to examine the firm's books last night, and Moore stated to your reporter that he could not say whether they were right or wrong. This morning Weber had H. M. Wright, an attorney, to examine the books.

THE CORONER'S INQUEST. The coroner's jury consisted of John J. Seay, foreman; W. S. Richards, J. R. Craton, J. H. Lumpkin, John T. Ware, E. Z. Taylor A. S. Harrold, A. J. Alley, Samuel Funk-houser, John C. Child, William Adkins and J. R. Treadaway.

The testimony before them was as follows: The first witness, Ed Ortein, said the men ad been disputing about books some time today. Weber said he had to have a settle ment just after dinner. Cothran says, right, get a responsible man to examine the books." Weber said, "Shut the doors and we will settle this d—n quick." Weber walked to the front door, and shut it. Cothran said: "Don't be in a hurry, I will get a man to straighten the books." Weber advanced toward Cothran. Cothran pulled out a pistol and told Weber to stop. Cothran then fired the first shot, then the second, third and fourth. Weber's little girl and boy were in the

John Roser, an eve-witness, said that Weber and Cothran had been quarreling two or three weeks about the books. He saw the tragedy Cothran said: "Get a bookkeeper and go through the books." Weber shut the front door. Cothran pulled out his pistol and put it behind his back. Weber returned from the front door. Cothran presented the pistol. Weber said: "Don't shoot me." Cothran

fired four shots. Johnny Negrien, also an eye-witness, stated that Cothran and Weber had been quarreling two or three weeks about the books. He saw the difficulty. Just before Cothran came into the store, Weber said: "I'll kill the d-n—with the press stand." Cothran entered.

Weber demanded a settlement. Cothran said to get a responsible man to examine the books. Weber said he would have a settlement now, and ordered all out of the room, as he an Cothran would settle alone. Weber shut the front door. He came back and picked up a pair of tailor shears and walked toward Cothran. When in a few feet of him Cothran fired, and the shears were laid down about the same time. Cothran backed and Weber fol-

lowed. Cothran shot three more times Captain W. W. Seay testified that Weber had been down to see him, and said Cothra had taken money and embarrassed him. Seay advised Weber to settle peaceably.

H. P. Crossman swore that he saw the last shot fired. Weber was falling at the time. The other witnesses introduced minor details. The pistol shots were three in the breas and one in the arm.

THE VERDICT RENDERED. The verdict of the coroner's jury was as fol-

"We, the jury, find that Joseph Weber came to his death at the hands of James E. Cothran, and Cothran is guilty of murder." Cothran was arrested just after the shooting and lodged in jail. His statement is that Weber had on several occasions told him that a tailor's shears were better than a pistol

or a knife; that at the time Weber advanced on him he had the scissors in his hand, or at hand; that Weber kept advancing and he The prominence of the parties make this an

all-absorbing theme. Many expressions of sor-row go out to Weber's wife and little children, and many expressions to Cothran's wife and family.

ONE THOUSAND BALES.

The Record of Marshallville for the Present Year.

MARSHALLVILLE, Ga., September 4.—[Special.]—One thousand bales of cotton picked and marketed by September 1st, and that, too, on the thirty-second parallel, and in a village of 800 inhabitants, speaks volumes for the agricultural possibilities of the country. Every bale was sold here. Resident and foreign buyers pay right here in the home market prices equaling the larger cities. In fact, the buying is mostly for Liverpool shipment. The harvesting and preparing this staple for market "turns loose" large amounts of money, which quickens every artery of commerce. This is the golden season for the country merchant.

CUTTING OFF THE COTTON. The Rains and the Boll Worms Doing

GRIFFIN, Ga., September 4.—[Special.]—
THE CONSTITUTION is informed of three disastrous appearances in the cotton in this section, which will tend to lessen the crop considerably, it is feared. siderably, it is leared.

They are the recent rains, which have caused rust and boll worms both to make their

appearance.
Some prominent farmers in the city today consider their crop cut off, by the three dis asters, fully one-third. This may be too much, but it is certain the crop is damaged considerable.

Buford's First Bale

BUFORD, Ga., September 4.—[Special.]—The first bale of the season was sold here to-day by James Hansord, of Forsyth county. It was wrapped in cotton bagging. It was classed middling, and brought 10 cents per pound. W. T. Smith was the purchaser.

A New Depot for Albany. A New Depot for Albany.

ALBANY, Ga., September 4.—[Special.]—For a month or two work has been progressing on the great lot of the Central railroad on Washington street. A large number of hands, under the contractors, has been busily at work, digging, grading and leveling. The lot contains some ten or twolve acres, and an immense amount of dirt has been taken therefrom and placed upon the city streets This week tracklaying will commence thereon and work begun shortly after upon the new freight and passenger depots.

The Navigation of the Flin ALBANY, Ga., September 4.—[Special.]—
The navigation of the Flint river between Albany and Bainbridge by the little steamer Montezuma appears successful. The boat is undergoing some needed improvements, cabins being added on the upper deck for the convenience of presenters. ice of passengers.

ALL FITS stopped free by Dr. Kline's Great Nerve Restorer. No fits after first day's use. Marvelous cures. Treatise and \$2 trial bottle free to fit cases. Send to Dr. Kline, 931 Arch street, Philadelphia, Pa.

COLUMBUS NEWS NOTES. Yesterday's Happenings in the Lowell of

the South.

Columbus, Ga., September 4.—[Special.]—
The Columbus Guards are now drilling three times a week for the Piedmont and Chattahoochee Valley expositions.
Cotton is coming up the river in quantities. The steamer Ellis, on her last trip, brought over 200 bales, and the Naiad yesterday brought 285 bales.
Miss Pitts, of Oswichee, Ala., is in the city visiting Mrs. Woodall.
Misses Sallie and Ella Marshall, of Talbot county, are visiting their aunt, Mrs. Woodall, on Rose Hill.
Mrs. Louisa Holmes has returned to her

on Rose Hill.

Mrs. Louisa Holmes has returned to her home, at the Vernon, after a pleasant summer spent at Cusseta, Ala.

Mrs. C. T. Goode left today for Spartanburg, S. C., where she will visit her daughter, Mrs. W. A. Law.

Rev. B. W. Bussey, paster of Coliseum Place Baptist church, New Orleans, is in the city. Mr. Bussey formerly lived in Columbus, and has a large number of friends here who are delighted at seeing him again.

and has a large number of friends here who are delighted at seeing him again.

Rose Hill wants to come into the city unconditionally under the new charter. Last night the Rose Hill club held a rousing meeting in the interest of this matter, Mr. C. E. Caverly presiding, and Mr. J. J. Joines, Jr., acting as secretary. The matter was favored in speeches made by Colonel F. D. Peabedy and Colonel G. E. Thomas, Jr., and opposed by Messrs. L. H. and T. J. Chappell, R. B. Gunby and H. R. Goetchins. It was decided to send no petition to council at present.

THE LITTLE RED STEER,

Which Covered Twenty-Two Miles in Four ALBANY, Ga., September 4.—[Special.]—A little red ox, hitched to a cart, came trelling briskly into town the other day. The vehicle towered way above the little ox, and perched

towered way above the little ox, and perched therein was a large mulatto man whose pleasant face with its high cheek bones and small moustache gave him the appearance of a Malay. Around the forehead of the little animal was attached a pair of rope reins. It came in at a nimble pace, wheeled into the alley back of the store of N. F. Tift & Co. and halted. The snight love laughed at the queer

alley back of the store of N. F. Tift & Co. and halted. The small boys laughed at the queer sight, but the little ox and its driver appeared oblivious of all comment and criticism, and attended strictly to business.

THE CONSTITUTION learned that the owner's name was Reddin Smith. He appeared very proud of his trotting steer, and stated that he lived in Worth county, twenty-two miles away, having made the distance in four hours. He did not have much time to talk, however. A new red roadcart was purchased, a side of meat, sack of flour and other necessities, placed in the front part thereof, and soon the placed in the front part thereof, and soon the little bovine was moving along at a lively rate towards his home amid the wiregrass and

BUILDING UP THE TOWN.

New Buildings and Improvement of Real Estate.

MARSHALLVILLE, Ga., September 4.—[Special.]—The Marshallville Manufacturing an Improvement Company is erecting a hand-some building for a hotel, to be ready for busi-ness by November next. This hotel venture is but the inauguration of many new enterprises which the improvement company will undertake. Its investments have already improved the tone of the real estate market.

Rice & Murph Bros., have bought for \$6,000 the M. J. Hatcher property, to which they will add further improvements.

Baldwin, Frederick & Murph have bought property areas of woodland near in and will

ninety acres of woodland near in and will beautify it, it is reported, with drives, fish and bathing ponds, and set it out in choice fruit rees and grapes.
Other buildings are going up.

A PRIZE FOR A NAME. The Young Ladies Called on to Name

Hotel. CORDELE, Ga., September 4.—[Special.]—
The directors of the new hotel of this place, have offered one year's subscription either to The Condelean or to The Constitution to the young lady who will give the best name for the new \$50,000 hotel in Cordele, which is

nearing completion.

Every young lady is entitled to give two names, which they are requested to write on a postal card and send to the editor of The Cordelean, Cordele, Ga., together with the postar card and send to the editor of The Cordelean, Cordele, Ga., together with the writer's name. These will be published in The Cordelean each week, and on the 8th of September, from all of the names, one will be selected, which will take the prize, and the lucky young lady will receive one of these splendid papers as a premium for her sagacity.

THROWN INTO A WELL. The Murderous Deed of a Seven-Year-Old

Boy. MILNER. Ga., September About 4 o'clock yesterday evening a report was received here that a negro baby, about twelve months' old, had been thrown into a well and drowned on L. C. Holmes's farm, about one mile rom town. The coroner was at once notified and at 9 o'clock a. m., a jury was empuneled when the rumor was substantiated, and in a few minutes after hearing the evidence the following verdict was rendered:

We, the jury elected and sworn to inquire into the death of Charley Walton Noble, now lying dead before us, find that he came to his death by being thrown into a well by the hands of one Lu-ther Holmes, colored, a bey about seven years old.

He Was Discharged.

Macon, Ga., September 4.—[Special.]—Will Pembroke, alias Will Fambro, a negro, was arrested last night on a charge of passing a counterfeit pewter dollar.

Today he was arraigned before United States Commissioner L. M. Erwin, but was released, the evidence offered being insufficient to war rant his being held.

A Fancy Dress Ball.

Macon, Ga., September 4.—[Special.]—
Macon will be largely represented at the fancy
dress ball to be held at the Elder house, Indian
Spring, on Saturday evening next. This will
close the season so far as dancing and music
are concerned. The beaux of this city will be there in great force.

Sudden Death of Judge Noves

CINCINNATI, September 4.—E. F. Noves, judge of the superior court of Cincinnati, feli dead shortly after 11 o'clock today, at the courthouse. He had been on the bench and heard an injunction case, but as he was too unwell to proceed further, he left the bench and was on his way to a street car when, at the corner of the courthouse, he suddenly fell backward and died instantly. The cause is supposed to be apoplexy. supposed to be apoplexy.

A Sad Burial.

Jackson, Ga., September 4.—[Special.]—Little LeRoy Eugene, the infant son of Hon. and Mrs. Marcus W. Beck, was buried in the city cemetery yesterday. The little fellow died from an acute attack of cholera infantum. His distressed parents have the sympathy of the entire community.

The Funeral of Mr. Huff. Columbus, Ga., September 4.—[Special.]—
The remains of Mr. W. H. Huff, who died in
New York, reached the city last night, and
the funeral took place from the residence of
Mr. William Beach this morning and was
largely attended.

Defended by a Friend.

Defended by a Friend.

GREENE COUNTY, Ga., September 1.—Editor Constitution: The account of the suicide of Rev. W. A. Overton at Union Point, as recently published in your paper, is calculated to do injury to the memory of a high-toned, Christian gentleman. The inference that there ever was anything improper in the conduct of Mr. Overton is totally unfouded. I therefore beg that you will publish the following true statement of the causes leading to his untimely death:

Mr. Overton had been sick for more than a month, as the result of overtaxation in carrying on protracted services at his different churches. About three weeks ago he fell from a hammock, his head first striking the floor. He lay unconscious for some minutes, and his daughter, who rushed to his assistance, thought him dead. He never recovered from this fail. He was in bed the day before the terrible tragedy, suffering with nervousness and a brain affection. In the afternoon his mind weakened, and by night he was completely deranged. All his relatives and friends regard his suicade as the result of this mental derangement.

A RECEIVER NAMED

TO TAKE CHARGE OF THE MACON AND COVINGTON ROAD,

Which Had Defaulted in the Payment of Its September Interest—The Causes Leading to This Result.

Macon, Ga., September 4.—[Special.]—The Covington and Macon railroad has been placed

Testerday, Messrs. Alexander & Green, of New York, and B. H. Hill, of Atlanta, as attorneys for the Mercantile Trust Company, of New York, presented a petition to Judge Richard Clark, of Atlanta, in the absence of Judge Miller from Macon, against the Covington and Macon road, asking that an injunction be granted and a receiver appointed for the

Judge Clark appointed Major John C. Key, of Monticello, as receiver. He is the vice president of the road. A temporary injunction was also granted and the hearing set for Sep tember 13th before Judge Clark at Ma The papers in the case were filed today with the clerk of Bibb superior court. Honor N. E. Harris is the attorney of the road.

The plaintiff, the Mercantile Trust Company, is trustee for the bondholders and brings action because the road failed to pay the coupons of the bonds which fell due ber 1st, instant. The amount was about \$35,000, which represents six months' interes at 6 per cent. This is the first payment ever defaulted, The receipts of the road have always easily paid the running expenses, but were not sufficient to pay the interest on the bonds. For some time Colonel E. C. Machen advanced the money to pay the coupons, and after arrangements formed with Alexander Brown & Sons, of Baltimore, they have been advancing the money to pay the coupons. This firm refused to advance any more money for the purpose, and the payment of \$35,000 was accordingly defaulted.

The road is 107 miles long, with about fifteen miles of sidings, and was bonded at \$12,000 per mile. The total amount of bonds is \$1,284,000. There is an equal amount of stock. Alexander Brown & Sons own about one-third of the bonds and three-fourths of the stock. A good many of the bonds are owned

The road owes no floating debt. In fact, it owes nothing but the coupons on the bonds. The roadbed is in excellent condition, and the Covington and Macon is considered a first-class line. Colonel John E. Jones became president of the Covington and Macon in May, 1889. Since his incumbency of the office he has spent \$250,000 in improvements, etc., from the earnings of the road. Under his management the road has done well.

President Jones and the directors will now retire and give place to Receiver Key. All the other officials and working force will remain in their respective positions. The business of the road is constantly increasing.

President Jones knows nothing positively of the truth of the report that the Richmone Terminal has purchased the Covington and Macon. No such information has been con veyed officially to him.

In the light of the receivership it is pre-sumed that if the road is not already sold, it will be sold very soon. Wheever buys it will obtain a first-class line. It is well built and in an improved condition, and runs through a fine country. With through connections at Athens the Covington and Macon will be one of the best paying pieces of railroad property

COLUMBIA HAS ENTERED. Seven Counties Already on the List-Geor-

Macon, Ga., September 4.—[Special.] President W. J. Northen, Treasurer R. J. Powell, Dr. H. H. Cary and Secretary Jemison, of the Georgia Agricultural Society, have

been in conference today organizing the at-tractions of the State fair programme.

Wednesday, October 22d, the first day of the fair, will be known as 'Geoegia day. All the members-elect of the Georgia legislature will be invited to be present. The candidates for president of the senate and speaker of the house will also be invited to be present

and deliver short addresses.

Thursday is national day when the congressmen are invited to be present.

Friday is trades' display day.

Saturday is children's day.

Monday to children's day.

Monday is education day.
Tuesday is alliance day. Tillman, of South
arolina, is expected to be present.
Wednesday is Macon day.

During the chautauqua, Rev. T. DeWitt Talmage will deliver a lecture

Gossip. Macon, Ga., September 4.—[Special.]—The receipts at the ticket office of the union depot receipts at the ticket office of the union depot during August were ever \$33,000.

Commencing Monday the Central railroad will sell eight-day tickets from Macon to St. Augustine for \$6 for the round trip.

Mr. Will Hamilton has been appointed yardmaster of the Central road at Macon.

W. A. Vaughn, of Knoxville, general su perintendent; Edwin Fizgerald, of Knoxville, traffic manager; E. H. Barnes, of Atlanta, superintendent, and J. J. Griffin, of Atlanta, assistant general freight agent officials of the East Tennessee, railroad, passed through Macon today for Atlanta en route from a trip over the line south of Macon.

City of Mexico, in company with Captain W. G. Raoul, formerly president of the Central road, but now president of the Mexican road, but now president of the Mexican National. Major Bacon goes on a pleasure and recreation trip, and will visit the City of Mexico, Monterey, San Luis Potasi, Zacatecas, Leon, Chihuahna and other points of interest in Mexico. He will be absent several weeks.

The marble bust of the late Sidney Land

has arrived from the north, together with the marble pedastal. The bust will be unveiled with appropriate ceremonies in October.

Volume No. 2, of The Library of American Literature, contains the interesting story "Minc," by Harry Stillwell Edwards. On one of the pages is a life-size likeness of the talented writer.

Dyspepsia

Makes many lives miserable, and often lease self destruction. Distress after eating, siek head ache, heartburn, sour stomach, mental depression, etc., are caused by this very common and increasing disease. Hood's Sarsaparilla tones thy stomach, creates an appetite, promotes healthy digestion, relieves sick headache, clears the mind, and cures the most obstinate cases of drapepsia. Read the following:

"I have been troubled with dyspepsia. I had but little appetite, and what I did ent distressed me, or did me little good. In an hour after eating I would experience a faintness or tired, all-gone feeling, as though I had not eaten anything. Hood's Sarsaparilla did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced. It relieved me of that faint, tired, all-gone feeling. I have felt so much better since I took Hood's Sarsaparilla, that I am happy to recommend it." G. A. PAGE, Watertown, Mass. N. B. Be sure to get only

A WILD ENGINE

COLLIDES WITH AN EAST TEN-NESSEE PASSENGER TRAIN.

A Series of Wrecks in the Yards Last Night-The East Tennessee, W. and A. and G. P. Have a Hand in It.

A trio of railroad trains got into a disastrous tangle last night.

They were a Western and Atlantic yard train, a Georgia Pacific yard train and an East

Tennessee passenger train.

Three collisions occurred inside of fifteen Two engines and a tender were torn to pieces,

and the third badly dismantled.

Fortunately nobody was injured in any one of the collisions, though the loss of life might have been great but for a bit of good luck. Here is how the triangular collision occurred

TARD TRAINS COLLIDE.

Last night between 10:30 and 11 o'clock, a
Western and Atlantic switch engine was putting cars on the East Tonnessee tracks near

Western and Atlantic switch engine was putting cars on the East Tennessee tracks near Simpson street crossing.

By some mismanagement, a Georgia Pacific yard engine collided with the Western and Atlantic engine with great force, tearing the tender away, and allowing the Western and Atlantic engine to go free, with only slight damage to the woodwork.

When the collision occurred the Western and Atlantic engine was on the East Tennestee main track, heading southward.

The shock of the colliding trains terrified the engineer and his fireman so that both jumped from the cab to escape danger.

Before jumping the engineer had opened wide the throttle of his engine to pull out of the way and avoid the collision which he saw was about to occur between his engine and the Georgia Pacific train.

A WILD ENGINE.

When the coupling which connected the Western and Atlantic engine to its tender was broken, the machine darted forward like a greyhound.

The engineer and fireman were on the ground,

The engineer and fireman were on the ground,

The engineer and fireman were on the ground, half stunned, and were horrified to see the engine rushing wildly down the East Tennessee track toward the center of the city.

In a moment it flashed upon the engineer that the northbound East Tennessee passenger train was almost due, and it was with a shudder that he contemplated their meeting.

At a terrific pace the engineer rushed on threagh the yards to the passenger depot, where the-crowds were puzzled to understand what it meant. Then the news came that the engine was

TRYING TO PREVENT A COLLISION. TRYING TO PREVENT A COLLISION.

The station agent took in the situation in a moment. The whistle of the approaching passenger train had already been heard in the distance, and with the wild engine rushing toward it a fatal collision must ensue.

Stepping to the telephone he called up the shops in hopes of being able to avert the catastrophe by switching the passenger train before it met the wild engine.

But it was too late.

The passenger train, however, was fortunately at a standstill alongside the coal chutes.

THE ENGINES COME TOGETHER.

THE ENGINES COME TOOKTHER.
Without any warning the wild engine-dashed into it, tearing itself to pieces in the plunge. The passenger engine was wrecked also, but by a miracle, almost, the engineer and fireman escaped.

and fireman escaped.

The passengers were jostled and shaken up by the shock, but no one was burt as far as is known. A great deal of excitement prevailed, but very little time was lost in getting the train out of the wreck and bringing the passengers. sengers to the city by another engine.
All that prevented loss of life was the fact the passenger train was at a standstill when the collision occurred.

Wrack on the Western and Atlantic. There was a wreck on the Western and Atlantic, above Kingston, last night.
Several freight cars were thrown from the track, but nobody was hurt as far as is known.
The passenger train due in Atlanta at 11 o'clock was delayed until nearly 2 o'clock.

The Sun's Cotton Review.

New York, September 4.—Futures opened at twelve points' decline, closing easy at a decline of sixteen points on September and twelve to fourteen points on the other months from 'yesterday's closing prices. The break at Liverpool in the early months, equal to one-fourth to one-third of our prices, was rather too much for the stoutest our prices, was rather too much for the stoutest of our bulls, who were looking for some reaction, and a sharp decline at the opening was the result. The lowest prices of the day were reached within an hour. Just before the last call a little buying to get back some of the cotton sold earlier caused a recovery of a few points, but carried no improvement of tone, and in the last fifteen minutes values again receded. September, October and January were the most a t.ve months, and the first named closed at about the lowest figure of the day, although stocks are very small and the tears expose themselves to the "corner," of which some hints were given cut, Southern markets were in some cases 1/2 to 1/4c lower. The weather was good, except in Georgia, where heavy rains are reported. Cotton on spot was 1/2c lower, but in change from old to new cotton, quotations were reduced 3/2c.

A Proposed Training School. A Proposed Training School.

RALEIGH, N. C., September 4.—[Special.]—
There is to be a wide-spread movement for the establishment by the state of an industrial training school for women in North Carolina. This began two years ago, but it is learned today that the King's Daughters all over the state will soon prepare a memorial on the subject, which will be laid before the legislature. Various other influences will also be brought to bear.

A child that is restless at night and don't deep well, should be given Dr. Bull's form Destroyers. It may have worms.

ASLEEP ON A BATTLEFIELD

To sleep on the field of battle during the progress of a fight would seem next to impos-sible for a well man. Yet many confederate oldiers will remember that it was oftentimes solders will remember that it was oftentimes the case that our men, worn out and exhausted with hunger and fatigue, would sink down and sleep even while the battle was raging—if it so happened that their part of the lines was not immediately engaged. But I have known soldiers to sleep even under fire.

I want to narrate here some little incidents of a personal nature—meanwhile let me wedge in a few bits of historical matter, which some cavalrymen from the Carolinas, Georgia, Tennessee and Mississippi will well remember.

Tennessee and Mississippi will well remember.

After the burning of the bridge referred to in The Construction of July 13th, we had numerous tussles with the enemy, who were endeavoring to relieve or reinforce the garison at Harper's Ferry. General Young's engagement was but a few hours afterwards the same day. General Stuart was endeavoring to protect every possible point between the enemy's cavalry and the confederate infantry. We were near Jackson's lines when orders were issued for us to enter a thick wood dismount, and rest both men and horses.

The cavalrymen had strict injunctions not to make any fires—not to raise a smoke—for the enemy, with the artillery, were in full view of us through the openings in the forest, and they had been shelling us all day. We were still under their guns, though they were not aware of the halt we had made in the grove. But some of our fellows, determined to try the "new and genuine" coffee which they had been so fortunate as to obtain during our stay in and around Frederick City. To make the beverage hot required the fire. The fire produced a smoke; and soon the grey, dusky columns from above the boiling kettles began to ascend and scattea over the crest of the forest in which we had the bivouce.

But that was enough. The little fire had betrayed the whole corps—the enemy located us at once—and in less than three minutes' time we had the whizzing and whirring and bursting of shells among us again, to enliven the lunch upon which we were engaged. They had us in good range. We could, through the openings in the trees, see the very movements of their gunners as they fired their artillery at us.

My! What a panic we had in a moment!

"Put out that fire!" "Put out that fire!"

see the very movements of their gunners as they fired their artillery at us.

My! What a panic we had in a moment!

"Put out that fire!" "Put out that fire!"

"Put out that fire!" You could have heard these yells coming from a thousand throats. But it was too late. The enomy had gotten our range exactly—they knew exactly where we were—and they were making matters lively for us in that skirt of woods. There was then certainly the mounting in hot haste, and the rushing feet, and the hurrying squadrons, (though no dancing no cheeks all pale that had the hour before blushed at the praise of their own loveliness), in the breaking up of that revelry there over the genuine "Lincoln coffee." We had a genuine case of demoralization. No soldier likes to be fired upon when he can't return the compliment. I think the most terrific and uncomfortable ordeal under which I ever saw soldiers placed, was once when a whole cavalry squadrous was thrown forward "simply as a body of observation for the enemy to shoot at," strict injunctions being given not to return the fire and not to change the position until ordered to do so. John Pelham, "the gallant major," was the only man in all the body who seemed unmoved—who took in the situation with the utmost sang froid—for he was there with his guns to help when the fight at close quarters came. When it did come—when that close quarters fight was upon us, I saw General Wade Hampton dismount, and help Pelham work the guns—the general putting his own hand to the guns. This was in Maryland.

ton dismount, and help Pelham work the guns —the general putting his own hand to the guns. This was in Maryland.

But we soon got out of the range of the artillery firing upon our coffee-makers—leaving the trees to get the benefit of the long continued shelling. Not long afterwards we were in Harper's Ferry supplying ourselves with side arms from the stores just captured by Jackson. The guns and other munitions of war there obtained came in good time; for we soon had to use them in the battle of Sharpsburg.

When that fight openened our cavalry When that fight openened our cavalry brigade (Hampton's) was thrown out on our extreme right—the enemy's left. We had been constantly guarding that wing of Lee's army. Early in the day of that battle I was sent to General Lee's headquarters on some mission the exact nature of which is now forgotten. But some things connected with that battle are forever fixed in the memory. I found the great general on an eminence just west of the village of Sharpsburg. He was surrounded by the staff and by couriers coming and going. It was the first time I had ever been immediately in his presence to speak with him during the progress of a great battle.

From his position we had a good view of the

of a great battle.

From his position we had a good view of the struggle of battle as it was going on in the fields just south of the town. The general was watching with intense solicitude some federal batteries that were dealing terrible destruction upon our men. Orders had been issued for the capture of the batteries. I witnessed the efforts made by our noble infantry to accomplish the task.

The first charge made upon the guns was re-The first charge made upon the guins was re-pulsed with frightful and distressing conse-quences. O, how my heart sank in agony when I saw our broken lines, beaten in the face with the awful halistorm of fire and shot, begin to waver, then falter, then stagger, then wheel

waver, then latter, then stagger, then wheel and run in retreat!

General Lee's face grew intensely grave and serious, and for the moment he seemed troubled and impatient. The great commander was hurt beyond expression.

But soon the boys in gray returned to the task before them—those not already fallen in the first assault. But behind them this time

was a strong support—there were two solid lines of dark gray infantrymen, moving with the resolve to conquer. These two lines had formed under cover, and when they again emerged into view of the guns before them,

emerged into view of the guns before them, the men gave shout upon shout, and as with one impulse they sprang forward like a lion in his cap. On and on the brave fellows dashed—heedless of the terrible storm of grape and cannister that was thinning them at every second of the advance.

The rush was but for a minute or two, when there was a bull in the sounds of the cancer. The rush was but for a minute or two, when there was a lull in the sounds of the cannon, then came an immense, wild cheer that rose above the battle's din, and the victory there was with the boys in gray! The shout was taken up by our men all along the right. Soon again came the roar of the big guns—our men had seized them, and as soon as possible to have them worked effectually, they were turned upon the flying foe—then all was again enveloped in the blue and sulphurous canopy of battle.

(I have never learned what troops it was that captured their batteries. Can any of your

The contest their batteries. Can any or your readers tell?)

The contest there kept raging till the night came and both armies sank down upon the blood-stained field and woods—our troops on the left sorely worsted; and the enemy as sorely punished on our right—their left. Had they whipped us there and turned Lee's right flank, his army would have run some risk of destruc-

punished on our right—their left. Had they whipped us there and turned Lee's right flank, his army would have run some risk of destruction at Sharpshurg. Holding our own there on that right flank saved all.

The soldiers in blue and the soldiers in gray, nearly in sight of each other there, at nightfall ate their crust, and stretched their battle-worn limbs for a brief respite, expecting a renewal of the conflict on the morrow, for victory had not yet come with her palm to either blue or gray. So far, it was an undecided battle.

Of all the men in the two armies, perhaps General Lee was the only one who knew what would be done on the morrow. He slept but little that long September night—the burden of a nation upon his anxious heart. His men, however, fell down just where the darkness overtook them, and they committed themselves to sleep, into the hands of the Great Ruler of destinies, in the utmost confidence that whatever "Mars" Robert" ordered would be best for all.

Long after dark the men in my command were stirred un and moved forward more fully

be best for all.

Long after dark the men in my command were stirred up and moved forward more fully into what we then expected would be the battle arena on the morrow. There we were ordered to remain, in bivouac, each man holding his saddled horse well in hand.

All save the sentinels—advanced videttes, just a ahead few rods—were sleeping as best we could under the circumstances. Near me was a captain who kept jogging and nudging a bedfellow close up to him. Every few minutes the captain would repeat the punch-

ing, begging his neighbor to "Get further"—"get further and give room for a crowded man." A large stone and a tree on the other side of his body, kept the officer in a narrow place.

My friend kept up his punching and his pleading until about midnight, when some written orders were received which required our men to move again—this time to take position far up the river on our left, where our troops had suffered so severely, and where it was expected the conflict would be remewed in the early dawn of the coming day. When the orders reached the captain mentioned, he struck a match to enable him to read the circular.

Something more horrible than the command to move met his eye. The bed-fellow he had been nudging and begging to "get further" was a dead soldier! He had moved forward into that bourne in which there is no human endeavor. He was an infantryman, and his dead comrades were lying all around among us. We had been sleeping on the day's battlefield and among the dead—their bodies not seen by us when we had moved forward and taken position on the abandoned line in the utter darkness, the bivouac being in a dense forest.

I was ordered to report at army headquarters. Here I received directions which separated me from my regiment for the remainder of the night. Our men, as I subsequently learned, were required to cross the Potomac river shove Shepherdstown, at a point where there was no ford, their horses having to swim in the crossing.

I had instructions to find a particular officer, and deliver to him in person important

and deliver to him in person important orders.

Where was I to find that man? Ah, that was the problem. How could there be found any one, save General Lee himself, in a battle arena that stretched four or five miles in one direction, and two or three in another? But still, I had to find that officer.

Failing to find him on the Maryland side of the river, I wended my way, as best I could, across into Virginia; wended my way through the awful sorrows and agonies of that September night. Wherever I went, there was the army of stricken menmen wounded with shot and shell and sabre and bayonet, men shricking and moaning in and bayonet, men shricking and moaning in the torturing agonies of transportation from the field, or under the excruciating horror of the surgeon's saw and knife.

There were thousands and thousands of these

There were thousands and thousands of these men, with nurses, surgeons, assistants, helpers—all in a chaos of suffering—all, save a few, endeavoring to get across the river before the morrow came with its tragedies and its uncertainties. The great struggle of the wounded men seemed to be just to "git across the river into Virginia"—into their own country, into God's country, into a land where they could count on friends—where, 'If die they must, they could depart upon the soil of their native land which they loved so well, for which they had fought, for which they were, many of them, dying, and where their graves could be watched over by loving ones from home.

With an army cut to pieces, with no pros-

watched over by loving ones from home.

With an army cut to pieces, with no prospect of reinforcements for Lee, while the enemy had an open country to his rear, through which, over which, thousands of fresh troops were hurrying, these facts added intensity to the mental agonies of the men suffering from wounds—wounds of every conceivable character. Some of these soldiers had had already a taste of prison life in the north, and no wonder, therefore, they cried all through that night for relief and for transportation across the river. "For God's sake," they pleaded, "take me into Virginia!" "Get me over the river—that's all I ask!" "Get me over there among my friends and let me there die, if die I must!"

Such expressions as these pierced my ears at

among my friends and let me there die, if die I must!"

Such expressions as these pierced my ears at nearly every step I took as I wound my way slowly through the great throngs of suffering, stricken boys in gray. It was more than an hour before I could get from General Lee's headquarters—scarcely a mile away—seross the river.

Once over the red-running waters, the chaos was worse, if worse could be. The sick and wounded and suffering were lying everywhere. The whole face of the earth seemed to be covered with the writhing, suffering soldiers. They had been, according to their own pleadings, simply carried over and, scattered over the ground, there they were left—left in the efforts to get all across before the next day's struggle began.

When I reached the Virginia shore, I began inquiring for my officer. But not a soul could enlighten me. The fact is, it was a time when there was not a man to be found who knew anything except about his own sufferings. No one knew who the man at his elbow was; no one could tell where a single comrade was. I could gain no information except about individual agonies and distress. I rode hither and thither—miles in this direction and miles in that direction—still not the faintest fact could I discover which would serve the purpose of my orders.

What was I to do? What could I do? My instructions were of an imperative nature.

What was I to do? What could I do? My What was I to do? What could I do? My instructions were of an imperative nature. Yet I knew this much—they didn't embrace the impossible; and the commander of the army knew something of the difficulties I had to encounter. I could appeal to him if personal trouble arose. I was hunting the invisible needle in the very biggest haystack ever seen by mortal man. And in the darkness I gave up in despair, realizing the utter impossibility of accomplishing any task in a gloom made horrible and weird in the presence of a thousand dying men and boys, many of these exsand dying men and boys, many of these ex-piring, in utter loneliness of soul, hundred, and in some instances a thousand, miles from

Worn out with my fatigue, my anxiety Worn out with my fatigue, my anxiety and my despair, I had to succumb to the universal touch of nature. I dismounted, took the saddle from my horse, and made a pillow for my head of that saddle. I then tied the halter rein fast to my wrist so that the horse could not be stolen or driven away without arousing me, and in a few seconds I was asleep amid the dead and the dying, the groans of the distressed, the wails of the sufferer, the deep roar of the majestic river near by, the booming of signal guns—these were the strange, weird lullabys which the battle hymns gave for my rest an hour before the dawn. No mortal soul ever before had such tragic tones in their lullabys.

in their lullabys.

I think that hour's rest was the briefest and the sweetest hour of my life, for I was soon in the dreamland of the blest. I was at home with with loved ones and dear ones, and was called to listen to the most delicious strains of music that ever entranced human ear. Those music that ever entranced human ear. Those strains were so in contrast with the weird lullalys of an hour ago that they awoke me, they broke the enchanted dream, and when I opened my ears to the actual realities of the moment, the bugle, at the very headquarters I was hunting, was sounding reveille, and the camp of the officer I sought was within a stone's throw of my dewy couch and well under the range of the enemy's guns.

In less than five minutes I had delivered my orders and was on my way to headquarters at the front again.

NOBTH BOUND, DAILY. No. 51. | No. 53.

The Funeral of Mrs. Dannie Lee Gorman

The Funeral of Mrs. Daunie Lee Gorman in Cussets.

Cussets, Ala., September 4.—[Special.]—
The funeral exercises over the remains of the beautiful and accomplished Mrs. Dannie Lee Gorman, were held here at 11 o'clock today by Revs. D. M. Banks, of Opelika, and Frank Culver, of Oak Bowery. This was her old home, the place of her birth and her marriage, and the people, white and colored, turned out en masse to pay the last sad tribute of respect to the beautiful and lamented dead. The people came from miles around, and it was the largest congregation ever assembled in Cussets.

There were large delegations present from West Point and Opelika.

The pallbearers were Messrs. J. B. McDonald, W. T. Huguley, J. A. Erwin and Patrick Gibbons, of West Point; Henry Smith, of LaGrange, and H. B. T. Montgomery, of Opelika. The floral offerings were numerous. Her remains were laid to rest in a beautiful hickory grove near the depot, and so ended the last scene in one of the saddest of deaths.

New York, September 4.—At 9 o'clock this morning three men were suffocated by deadly gases in an old cesspool on Staten island. One was employed to clean out the cesspool. Suspicious indications led a second to investigate and he was followed by a third, who saw that the first two needed assistance. All were poor laboring men.

When Baby was sick, we gave her Castoria. When she was a Ch'ld, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria

CHATTANOOGA, ROME AND COLUMBUS

"Chicamauga Ronte."

This new and popular route has a double daily passenger service between Chattanooga and Carrollton.

rollton.

The traveling public would do well to patrouize the new short line between the north and south. Close connections are made at Chattanooga, Tenn., Rome, Ga., and Carrollton, Ga., with all lines diverging from these points.

Our patrons are assured good and comfortable accommodations.

Note schedule below. In effect July 13, 1899.

> THE SUNDAY CONSTITUTION \$2 A YEAR SENT TO ANY ADDRESS.

ATLANTA, GA., SEPTEMBER 5, 1890.

Stand By the Party!

THE CONSTITUTION views with regret the tendency being manifested to depart from the path of democratic organization In certain sections.

Let us look at the matter coolly and dispassionately, as democrats, with one cause, one object and one result in ultimate view, whatever may be the temporary division on side issues.

The democracy of Georgia has learned by the bitter lesson of experience that the integrity of the party is its only assured bulwark against republican encroachment. It is the safety valve that protects us against the bidden evils of republican rule which are held under the surface in an ever effervescent state, ready to burst upon us in all the turbulent activity that characterized the era of republican rule in Georgia.

That safety valve cannot now be lifted without untold danger! For twenty years the democracy of the state has rested easy with abiding faith in its strength and unmeasured confidence in its power to hold back any threat against the integrity of the party.

Democrats have divided among them selves, but, like patriots, they have buried their differences in the counsel which rallied them to a common cause. When the party has acted the strong arm of organization has been thrown around its decrees, and in overwhelming triumph they have been carried to victory against all opposition. Like one man the party has moved; its solid phalanxes have presented an unbroken front and their mighty tread has been to the steady music of regularity.

After every campaign these gallant soldiers have turned from the field with stout hearts and steady nerve, ready to step to the sound for their next summons. And when called, their mobilization has been the wonder of the country. For the unity of their movement and the consequent result of unbroken organization, they have been rewarded by the blessings of democratic rule at home and by representation by democrats in the councils of the nation.

Only those who know what it was to have been under republican and carpetbag domination, can realize the true comfort of democratic administration.

The evil of disruption should not be encouraged. It may be like the waters of the Mississippi which, trickling through a break in the levee, not large enough to hold a sack of sand, will, if unchecked, rush in torrents to the valley and overwhelm everything with which it comes in contact.

When democrats go before democrats to submit their claims, the result should be final, if it is brought about by any degree of fairness or justice. Of this the party itself must be the judge, and it has its own organization to settle disputes.

Democrats, beware! Don't open the Pandora box of disorganization; don't cut the levee in the belief that the flow can be checked when it becomes alarming: don't invite danger and hope to defy it successfully; don't forget the lesson of the past nor overlook the hope of the future.

Remember, the safest plan is to stand by the party!

Only in this can all be well!

The Centennial of Cotton Spinning. Six months ago THE CONSTITUTION, commenting on a letter printed in these columns from the late Colonel Z. A. Rice, suggested that the centennial of cotton manufacturing in this country be celebrated in Atlanta during the Piedmont exposition.

There has been no response to the sugestion, so far as we know, but it is one that might be profitably utilized by the managers of the exposition to add to the general interest of a fair that promises to be the most successful as well as the most interesting exhibition ever held in the south.

We observe that the town of Pawtucket. in Rhode Island, is making arrangements to celebrate the centennial of cotton spinning. The celebration is to begin on the 30th of September and continue one week; but Samuel Slater, who began the business, his machinery in motion on the 20th of December, 1790, so that any celebration of the event that might be arranged for during the Piedmont exposition would not only be nearer the centennial date, but would be far

more appropriate. Pawtucket, for instance, has only a few tten factories to show as the result of Mr. Slater's ingenuity, and even these will have to be moved nearer to the cotton fields or be closed up. The south, on the other hand, has a crop of more than 7,000,000 bales which, with the manipulation of the seed, heretofore a waste product, will bring \$500,-000,000. We mention these things to show that the south has a much greater interes In celebrating the centennial of cotton spinning in America than either Pawtucket or

It is a matter that touched us, as the ase goes, where we live; it is an event progress and prosperity of the south in every direction. Under these circumstances, we

renew the suggestion that the managers of the Piedmont exposition might very appropriately and very profitably add to its already varied and extensive programme a centen nial celebration of cotton spinning in America. It is an event that would excite wide spread interest in all parts of the country, and would attract the attention of the cotton spinners at the north, who-already have their eyes turned in this direction.

Such a celebration could be made very interesting. Some of the relics of Mr. Slater's machinery could be obtained from the government, and it would be an easy matter to get one of the original models of Eli Whitney's cotton gin. Manufacturers in all parts of the country would gladly send samples of their goods, and the celebration while it would be subordinated to the genera aims and purposes of the exposition, would not only be interesting, but highly significant.

Leaders Out of Office.

When great problems demand a solution the people never lack advisers.

The advice given by these patriots is some times full of wisdom, and then, again, it is just the reverse. One thing it is safe to take for granted.

When a man pushes his way to the front, and attempts to make himself a leader, he either seeks an office, or is willing to accept one.

This is the rock upon which so many leaders split. With rare exceptions a leader in office is hampered. He is suspected and misjudged, even when he is as true as the needle is to pole. Every upward step on the official ladder causes him to lose influence. No man can advocate a great reform, and then accept a position of honor and profit, without being in a large measure shorn of his power.

The farmers, the Knights of Labor, th prohibitionists and the masses generally distrust a leader who is anxious to get an office and keep it. In a short time our great reformers become party hacks, and their honest opinions are regarded as the cheap claptrap of demagogues.

There is room in this country for leaders who will not accept office. It is a mistake to send our deepest thinkers to congress, and it is a bigger mistake to bind them with the red tape of an office requiring purely execu-

The careers of two entirely different men, north and south, are shining examples of what can be accomplished by great commoners who are satisfied to do their work as private citizens.

Wendell Phillips moulded the northern onscience, directed public opinion and did more to abolish slavery than all the northern statesmen and armies combined. He was narrow, bitter and unjust, but he was sincere. People saw that he could not be bribed, influenced or tempted to hold office, and they made him their idol. For a gener ation this man's tongue was the scorpion lash that stung presidents, cabinets, congresses and journalists into blind obedience to his dictation. But the acceptance of a single office would have reduced this powerful reformer to the dead level of the common herd of politicians.

We have had in the south during recent years a leader who, unlike Wendell Phillips. was a veritable apostle of sweetness and light. The New Englander was great in the work of destruction; the southern orator and philanthropist was greater in the work of building up. Our champion resembled Phillips in one thing-he would not seek, but declined office. With him it was a labor of love to serve his people, and when he looked into their smiling eyes and saw peace and plenty sitting at their firesides, he felt that he was sufficiently rewarded. He was untimely cut down in the prime of his man hood, but the lessons of his life and his wise counsel will live in our literature, legislation politics and civilization. But this singlehearted man of the people held himself aloof from the entanglements of office, and went to his grave the best loved man in all the land.

Where are the successors of these great leaders? We have able and good men in office, but their voices are drowned in the discord around them. There is no great commoner, standing above the crowd, and working for the good of all, without fear or favor, or the hope of reward. Politicians and statesmen we have in abundance, and there will always be competent men to run the official machine. But we need leaderssun-crowned men with their heads above the mists and fogs of sordid levels-strong, cleareyed men who will damn a demagogue, scorn personal advantage and delight in devoting their heads and hearts to the service

of their fellow men. When such leaders come they will rule the republic through other men, and leave behind them immortal names and works They cannot come too soon, nor stay with us

too long. The Farmers Take a Hand

The farmers of Florida, with a sharp eye to their interests, propose to play a prominent part in the Semi-Tropical exposition. which will be held in that state next winter. In December the National Farmers' Alliance and Industrial Union meets there, and the state alliance and ithe directory of the Sub-Tropical exposition are working together for their united interests.

The great work of the alliance is to have at this exposition a farmers' exhibit, which will surpass anything ever attempted in that line. A thorough canvass of the state will be made, and an interest in the work awakened among the farmers. They will combine all their energies to the making of a grand agricultural display at the exposition, and the farming interests of Florida will be

prominently placed before the country. It strikes us that this movement amount the farmers is a good one. At the annual expositions which are held in the south the farmers have too little representation. Many counties show a lack of interest in making exhibits, and some that could make a good showing are not represented at all.

It is so in Georgia, and we commen action of the Florida State Alliance to the thoughtful eonsideration of the farmers of the state. By united action they could do much for Georgia at the next Piedmont exposition, and all the expositions and fairs which may be held this year and in years to come. The wonderful resources of agricultural Georgia have never been fully advertised at our fairs and expositions. Many es, where we live; it is an event ost intimately connected with the and prosperity of the south in every . Under these circumstances, we tised at our lairs and expositions. Many prosperous districts have pressed boldly to the front, but others have stood timidly in the background. The alliances can take this matter in hand, and do a great work for

the state. A general interest is noticeable everywhere in state and county fairs, and this should be sustained and encouraged until every county in Georgia is represented in our agricultural exhibits.

What a great showing the farmers Georgia could make at our expositions if they would come solidly to the front!

The Truth Told in Boston.

A short time ago The Boston Watchman religious weekly, compared the southern whites to devils, charged them with murdering inoffensive negros, and then went on to talk about "unavenged blood,"

The Boston Globe contains an article from J. A. Scarboro, which ought to cause The Watchman to moderate its tone. Mr. Scarboro describes the situation at Guyton, in this state. He says that the negro laborers on the surrounding turpentine farms, work perhaps four days in the week, and loaf, gamble and revel three days. Nearly every negro carries a pistol or a razor. When an arrest is made they threaten the officers. The whites and the proprietors of the neighboring turpentine distilleries are always dreading a riot.

If white men sometimes kill negroes, it should not be forgotten that negroes kill white men and commit other outrages. The

writer in The Globe says. writer in The Globe says.

Not long since, Mr. Malsby, of Emanuel county,
was waylaid and killed by a negro because he had
discharged the murderer from his employ. Mr.
Dutton, of Bullock county, was also killed by a
negro because he ordered him off the place. A little child was outraged on the way to school by a burly negro. Two ladles were recently assaulted by another fiend in the shape of a negro. Another negro beat a gentleman's brains out with an ax while the latter was asleep in his camp on the way

More negroes are killed and wounded by negroes than by whites. Dr. Moony, of Bryan county, says that not less than five negroes were shot by negroes in about two months, within a short dis-tance, on the construction of the Savannah and tance, on the construction of the Savannah and Western rancoad. It is so common for negroes to kill, cut and shoot each other that the people are lmost inured to it. Every day and hour the laws re violated by scores of negroes, and if the au horities were to try to enforce the laws fully, The Watchman would have more blood to grieve over nt most of it would be Anglo Saxon blood.

These facts relate to a small area in a single state. A collection of similar outrages from all over the south would undoubtedly make an alarming exhibit. And yet all the testimony goes to show that the negroes are better treated in the south than they are in the north. The southern whites are patient and forbearing. They are freely spending their hard earnings to educate the negroes, with the hope of making them better citizens. Even under the most unfavorable conditions they have never lost faith in the regenerat ing power of our civilization. And when matters were at their worst, they have found comfort in the fact that our percentage of crime since the war is lower than it is in cultured Massachusetts.

The Tin Colonel Goes to War Again We find the following interesting paragraph in an editorial in The New York Mail and Express, a paper that is edited by the Tin Colonel, whose father-in-law has made him notorious. The paragraph is about the

recent election in Arkansas: This last display of the lawlessness and diabolism of democratic politics in Arkansas was not needed to show the country that the rebellion against the constitution still continues in all its riciousness in the southeast. The scenes of last week in Arkansas ought, first, to impel the house to promptly perform its too long deferred duty to exnel Breckinridge, and to deepen the carnest ess of republicans everywhere in demanding e enactment of the federal elections bill before this year goes out. And republicans and patri otic citizens generally should be so aroused by these Arkansas outrages that they will rise as one man and notify the rebellious southeast that the suffrage will be protected in every portion of union if a million of armed men are needed to

enforce the constitution and the laws. It will be observed that the Tin Colonel hardly has time to wash off the war paint of one campaign before he vigorously enters n another. A few months ago he raised a million men and annihilated the "southeast," and he hardly had time to rattle back home again before THE CONSTITUTION'S boycott editorial appeared. Tired as he was, the Tin Colonel did not hesitate an instant. Printing a peaceful text from the Bible in his paper, he girded on his armor, raised another million men and proceeded to devastate the "sontheast" for the second time

within a fortnight. It will be seen from the paragraph which we have quoted that the gallant Tin Colonel, not satisfied with the victories he has wor on the field of battle, is preparing to raise another army of a million men and wipe the 'southeast" out again. The Tin Colonel is a born soldier, and when things do not go to suit him, or when he wants to clinch an argument, he raises an army of a million men and swoops down on his luckless opponents.

Hurrah for the Tin Colonel!

The Conger Lard Bill.

Notwithstanding the fact that the way of the Conger lard bill through the house was paved with the gold of the great trust that is behind it, the measure created a considera ble storm, and it is natural that this should

In its purpose and in the results that it will bring about, it is the most infamous bill that has ever been proposed in congress, and it could only receive the support of men who are corrupt or ignorant. It is far more vicious in its intentions than ordinary class legislation. It proposes to tax out of existence, for the benefit of a syndicate of hog's fat manufacturers, a perfectly healthy food product, whose cheapness commends itself to

the poor people of this country. There has never been any complaint on the part of the public against the compound lard, which has refined cotton seed oil as one of its ingredients. On the contrary, the people-the consumers-have welcomed it, and have given it their endorsement by buying it in preference to the diseased hog's fat put on the market by the lard trust. They have found it to be both wholesome and cheap.

All the complaint that has been heard comes from the hog's fat makers, their bribed congressmen and their paid agents. The bill makes no pretense whatever of considering the wishes of the public. Through their paid agents and their bribed congressmen the lard makers have made a proposi tion as simple as it is infamous. They to congress in effect: "Here is a new food product that is injuring our hog's fat and running it out of the market. What we want is a tax on this food product so that it will be driven out of the market, thus enabling us to charge higher prices for our hog's fat."

This is the proposision in a nutshell, but the results of the bill go even further than this. When this cheap food product driven out of the market one of the

uses to which cotton seed oil is put will be lestroyed, a new southern industry will crippled, and the burden of the tax will be twofold. It will deprive consumers of a cheap and wholesome food, and will create a loss on every southern farm by limiting and narrowing the market for cotton seed.

Apart from these considerations, the bill, as The New York Sun aptly puts it, is dishonest, dangerous and unconstitutional. It throws the door wide open to unlimited bribery and corruption. Whenever a syndicate or trust concludes that a rival industry ought to be suppressed, it will invade cor gress, and buy the suppression of its rival, just as the makers of hog's fat are now trying to do. .

The lard trust is not only trying to sup press, by means of this infamous class legisation, the compound lard industry, but it is aiming to strike a deadly blow at the cotton seed oil industry. It is said the bill will not pass the senate, but the senate is republican, and the republican party is wrapped up i syndicates and trusts. In the next campaign the party will need money, and money s one of the strong points of the lard trust,

Northern Democracy.

Under the above caption, a correspondent at Sioux City, Ia., calls our attention to some interesting facts.

The democrats of the north, and especially of the northwest, have for many years had to make a hard fight against heavy odds. They have been loyal to their principles, and have never abandoned their party organization.

In Iowa the democrats, overwhelmingly defeated in 1854, never had a representation in a state office until the election of Boies as governor in 1889. Defeated in 1880 by a majority of 80,000, the party never thought of giving up the fight, but waged it with renewed vigor in each campaign, steadily reducing the republican majority until the state elected a democratic governor. Iowa now lacks only six votes of controlling the state legislature, and is counted as one of the doubtful states.

This is a splendid record for thirty-five years, and the following extracts from the democratic platform show that Iowa is in full sympathy with the south:

We are in favor of a tariff for revenue only; tariff reduced to the lowest rate consistent with the needs of an economical administration of gov-

The election bill passed by the lower house of congress is a menace to the freedom and purity of our elections. It places the treasury of the United states at the disposal of the party in power. It enables the managers of that party to employ a large a force as it deems necessary to employ as large a force as it deems necessary to the work of its campaign, and to do this under pretense of supervising elections. It destroys all responsibility of the government to the people by vesting its enormous powers in officers holding by appointment and for life. We believe that the rusted to conduct their own elections, and that the power of congress to determine the qualifica-tion, election and return of its members is suffi-

It is evident from this that the Iowa demo crats are standing shoulder to shoulder with their southern brethren.

Our correspondent quotes from several independent and republican platforms in the northern states to show that the people of that section are decidedly weak-kneed on the Lodge bill, and remarks that "it is owing to some extent to the threatened boycott first conceived by THE CONSTITUTION.

We thoroughly endorse the idea of the Iowa writer, that there must be no sectional prejudice to divide the democrats of the union. We must get together and pull together, until we redeem the republic. IF THE embrace of the ice trust was chilling,

the public will find the bosom of the coal trust hot enough. CLARKSON, WHO has just resigned from the postoffice department, has given the democrats points in removals. He has been in

office eighteen months, and for every day of that period he has removed sixteen democratic postmasters. THE REPUBLICANS of the house have not only disgraced themselves but the whole country

Cannon should be expunged. THE SUGGESTION that Mr. Blaine is not free trader comes from a republican source.

Mr. Blaine is wedded to any scheme that will interest the farmers of the west and northwest. He is quite ready to get on the democrati IF RECIPROCITY isn't a form of free trade, will The New York Tribune kindly tell u

COLONEL KENNEDY'S remarks about Colo nel Quay are not likely to be relished in the most distinguished republican circles. Colonel Kennedy is himself a distinguished repubican, and his remarks will go into that great diurnal, the Congressional Record. REPUBLICAN CONGRESSMEN are still con-

gratulating Cannon on his filthiness. It is a great thing to have a typical republican on hand where he can be viewed from the galleries.

-Columbus is working hard to make her exosition a success, ar d there is no doubt but that it will be a grand su cess.

-The following curious con pears in this week's issue of The North Georgia imes. It doubtless has a local application: Lost confidence is hard to find. For instance, when an individual teils me a positive lie and if find it out to be such, it is mighty hard for me to believe him next time; or if I were to catch one taking my chicks from the roost without giving me any notice, it would be mighty hard to make me believe he didn't love chicken. Now between the llar and the rogue I don't know which I would rather be if I were obliged to be one or the other in order to get a living in this sublunary world. I believe I would just be a hoot-owl and be done with it. Now don't nobody try to shoulder this all to themselves; there is enough in it for several turns—the truth will stand when all else fails, and its the truth that hurts the hardest where is hits the plumest.

Josh Rakins.

English as She is Sung.

The three-year-old son of a certain clergy-man came home from church the other Sunday with something puzzling his young soul. He was unusually silent all day, and it was not until next day that he appealed for light and help to his

SENT IT TO CHINA .- The Exposition Cotton SENT IT TO CHINA.—The Exposition Cotton Mills recently sold to exporters, for the China trade, 1,700 bales of sheeting. This is a big gale for an Atlanta industry and shows what the mills of this city are doing. None of the totton mills have stopped running during the summer, in spite of the high price of cotton.

THAT HIP POCKET.—His hip pocket got Charlie Volonton, a negro, into trouble yester-day. He was arrested by Policeman Moncrief on a charge of disorderly conduct. A pistol on a charge of disorderly conduct. A pistol was found upon his person, and an accusation for that offense was immediately sworn out against him before the city court. In less than ap hour he had been convicted and sentenced to twelve months on the rock pile.

Too UTTERLY Too, Too.—There is a sign on a certain building not 100 blocks from the The Constitution building. It reads.

"If they are too good to rent," remarked a passer by yesterday, "why in the dingnation does the feller want to fuss about them?"

WILL MAKE ATLANTA HIS HOME.—Colone W. G. Raoul, president of the Mexican National Railway, will soon begin the erection of an elegant residence in Atlanta. Peachtree street will be the site of his new home, just beyond Mr. Thomas M. Clarke's. Colonel Raoul is well known all over the state. He was president of the Central railroad previous to his acceptance of his present position, and has for a long time been prominent in railroad matters. Work on Colonel Raoul's new home will be home intra acceptance. matters. Work on Colonel Raoul's new home will be begun just as soon as matters can be arranged, and when it is completed his family will be moved into it. Colonel Raoul's headquarters is in the City of Mexico.

WHERE IS RUSSELL PAINE'S DAUGHTER ?-There is a man in Birmingham who wants to know the whereabouts of Russell Paine's

e man signs himself W. D. Jinkens, and Mr. Hamp Stroud received a letter from him Mr. Hamp Strond received a letter from him yesterday containing this anxious inquiry. He says that six years ago he married the doresaid daughter of Russell Paine, lived with her four months, told her to leave and she left. He has never seen or heard of her since. He read in the Age-Herald where a man tilled a woman in North Carolina some time.

He read in the Age-Herald where a man killed a woman in North Carolina, some time ago, and he wants to know if it was his wife.

The trouble about the whole matter is that he wants to marry again—he states that he wants to marry real bad—but he is afraid that Russell Paine's daughter may turn up and mar his second venture in the connubial scheme. Mr. Stroud does not remember Jinkins, although the latter claims that they were boys together in Butts county. And he knows nothing of Russell Paine or his daughter.

TALKING OF NEW ORLEANS.—Colonel W. H. Chapman, revenue agent for this division, has returned from professional work in New Orleans, where he was sent to inspect some charges made by the government.
"New Orleans is a great city for gallant men

"While in the city, I was thrown with the men of the Washington artillery, the battalion to which my battalion was attached, and to which I reported in the trying days of the civil was

"I was invited to be present at a meeting of e battalion while down there and was in-balling to the gallant fellows by Colonel

Richardson, who is the present commander.

"They called on me for a speech and I could not resist; so I recalled many pleasing little incidents of campaign life in camps to them. I read them a letter to General Longstreet and the answer, in which he endorsed the work of our battery in breaking work of our battery in breaking the charge of Fitz John Porter's corps against Jackson's columns, and the boys received it

Jackson's columns, and the boys received to with great applause.

"New Orleans is a city of the old south that will stand forever a monument to the lost cause. It is a city of heroes—a place where beauty and chivalry still illustrate, in living polors, the honor and purity of the south."

A NEEDED IMPROVEMENT.—Chief Con-nolly wants the police force further improved. "We need," said he, "at least two branch stations. One should be located on the north side of town and the other on the south side. side of town and the other on the south side. It, is hard for a citizen to understand how much we need these branch stations unless he has studied closely the police situation. If a man is arrested out near Edgewood or Brooklyn, he has to be brought clear in to the center of town. The same way near the East Tennessee shops and Grant park. This is very troublesome, and retards the effectiveness of the department in more ways than would occur on first thought.

"If West End is taken into the incorporate limits I don't see how we could possibly get along without at least one branch station on that side of town.

"It is not necessary that these branch sta-

that side of town.

"It is not necessary that these branch stations should be expensive. They would be used only to accommodate prisoners temporarily, and beyond the cages little fitting up would be required. Besides being a great assistance to the police department, these stations would also be a convenience to the public. An officer would be on duty then all night, and in case anything should happen, citizens would always know just where to get the quickest assistance. Other cities our size have their branch police stations, and we ought not to be behind. We need them, and I hope steps in that direction will be taken before long."

A Story on a Candidate.—"I heard a

A STORY ON A CANDIDATE.—"I heard a good story on a candidate," said a citizen yesterday. "This candidate is a very sound sleeper, after he once gets to sleep, and occasionally he does the somnambulist act. A few days ago he did a hard day's work, and after he was through. he went out on a canvassing tour and remained up until a very late hour.

atter no was through. he went out on a canvassing tour and remained up until a very
late hour.

"He fell into a sound sleep, and he must
have dreamed that he had been triumphantly
elected by a large and overwhelming
majority of his fellow-citizens. In
the midst of his dreaming, one of those
perlpatetic organ grinders that infest
the city, stopped in front of his elegant
suburban residence and began to grind out
"Little Annie Rooney," in his best style.

"The candidate bounced out of bed in his
night clothes and, like a Roman senator in his
robes, made his way down stairs, stepped out
on the front porch and began:

"Ladies and Gentlemen, Friends and Fellow-Citizens: Appearing before you as-"

"There was a yell from the organ grinder,
and an exclamation that sounded very much
like a 'G' and a dash and a 'd,' coupled
with another 'd' and another dash and another 'd;' and a shriek from the cook, who
had been listening to the music, and then
there was the rustle of a senatorial
robe as the candidate awoke to the
fact that his dream lacked several months of
realization."

"What was the matter with him?"

"What was the matter with him?"
"What was the matter with him?"
"Matter? Why, in his sleep he mistook the organ grinder for a brass band come to serenade him, and—"
"Oh, I see."

BOARD OF ALDERMEN. Convened in Regular Semi-Monthly Se

The board of aldernen convened in regular session yesterday afternoon in the mayor's office, Mr. Hutchison, Mr. Howell, Mr. Middlebrooks, Mr. Woodward and Mr. Reinhardt being present.

The meeting was a quiet one.

The council paper causing a change on Juni-per street, between North avenue and Ponce de Leon, was taken up. Upon that paper the street committee had made a favorable report. Mr. George M. Traylor sent in a paper pro-

testing against the change.

Colonel Albert Cox made a careful argument supporting Mr. Traylor's paper.

Judge Pendleton presented the views of those opposed to Mr. Traylor's paper.

The action of the council was concurred in.
Mr. Mahoney, commissioner of public works
appeared before the board in obedience to the
resolution of Mr. Woodward, introduced at

the last meeting.
"I moved Mr. Day's fence on Crumley street back," said he in response to a question, "because four feet of ground were necessary to make the sidewalk and because Mr. Day told me to move it and that he would look to the general council for his pay."

The explanation was satisfactory and Comissioner Mahoney was exonerated from

The board then concurred in the council resolutions,
Appropriating \$3 to clean out and put in order a corner of Peters and Leonard streets.

Settling with Mr. Ashworth, attorney in

the Williams and Wilson case Paying \$50 for curbing and sidewalks on

Paying \$50 for sidewalk and curbing on Paying \$50 for sidewalk and curbing on Crumley street. Spending \$25 for work on Lester street. Appropriating \$10 for guttering and side-walks on Simpson street to repair damages by water—the petition wanted \$1,000 for this

water—the petition wanted \$1,000 for this work.

Setting aside \$25 for repairing John Mc-Whorter's lot on Fair and Hardin streets.

Giving \$300 for sidewalk on West Baker street.

Expending \$60 in raising Mrs. Dawson's house on Boll street.

Expending \$60 in raising Mrs. Dawson's house on Bell street.
Granting \$100 to grading new street.
Disbursing \$100 for a more thorough ventilation of police headquarters.
Spending \$5,000 for water mains on Edgewood avenue, Spring and Pine streets.
Paying Grant Wilkins \$300 for damages to lot on North avenue.
Building a wall for G. C. Elfe, on Cedar street, at a cost of \$50.

THE SLEEPING-CAR TAX. The Atlanta and West Point Gives Notice

of Contest. The first railroad to make its return for the

Point, which came in yesterday.

In making the return, however, they give notice that they will contest the validity of the law and resist the payment of the tax, which is due on the 1st of October. They return eighty-seven miles of road in the state; and their tax under the law is \$100. LITTLE LOCALS.

Mr. George W. Duncan, one of Macon's most pushing young real estate men and general developers, was in the city on business yesterday.
A big excursion to Birmingham will leave Atlanta on the 8th. The fare will be \$1.50 for the round trip, and a big crowd is expected to go.

—E. Atwater was fined 25 cents and costs by Recorder Kontz vesterday for driving upon the sidewalk—a fine that ranks with the smallest on the docket. Officer Hunter made the case.

—Sergeant A. J. Moss, of the police force, wat announced as an addition to the Morrow tickes for sheriff. The sergeant is a good man, and will add considerable strength to the ticket. The addition to the county courthouse is rapidly nearing completion. It is being pushed as rapidly as possible, but the county commissioners are impatient, and it cannot be finished too

—Sam Clark, the negro Odd Fellow who was ar-rested for getting too excited in a lodge debate, was dismissed on good behavior by Recorder Kontz vesterday. He will probably keep a bridle on his eloquence next time.

on his croquence next time.

—Captain John Stevens has just returned from a visit to an elder brother, who is very ill at his home in Edgefield, S. C., from the effects of a fall received in getting out of his buggy. The injured man is still in a critical condition.

-Mr. Sam Hoge, agent of the Georgia Southern Mr. Sam Hoge, agent of the Georgia Southern and Florida railroad, was in the city on a flying trip yesterday. Mr. Hoge is one of the best known railroad men in the state, and is connected with one of the most popular lines in the south.
 Uncle Jim Parish, who holds the ribbons on the Black Maria, has gone to Griffin to see his mother who is very ill. Mrs. Parish is eighty-one years of age, and is so feeble that her life is despaired of. In Uncle Jim's absence Officer John Norman will drive the wagon.
 Cantain Ed Cax was out yesterday for the first

—Captain Ed Cox was out yesterday for the first time in four weeks. He has been very iil at his home in Decatur, with billous fever. This is the first illness in twenty-six years that has kept him in bed more than four days at a time. His friends are glad to see him on the streets again.

are giad to see him on the streets again.

—Mr. H. C. Sawtell has just returned from a trip to Washington and Philadelphia. He visited the house of representatives the day after the Cannon episode, and he says that the scenes enacted there reminded him of an Atlanta May meeting when all the ward workers are out and in their glory.

—Ray Frank League moderning.

-Rev. Frank Joseph was yesterday re-elected, for the third term, chaplain of the county chaingang and convict camps, by the grand jury. Dr. Amos Fox, foreman of the grand jury, will exert himself to see that this faithful old colored apostle re-ceives a salary sufficient, as he expressed it, "to at least keep his shoes half-soled."

-Gus Reed, a deaf and dumb negro, was

at least keep his shoes half-soled."

—Gus Reed, a deaf and dumb negro, was knocked down by a street car near the corner of Decatur and Loyd streets about 10 o'clock last night. He could not hear the approaching car, and the driver took it for granted that he would step from between the tracks and get out of the way. Reed was scratched and bruised considerably and had a leg sprained, but was not seriously hurt. A good drink put him upon his pins again.

ously hurt. A good drink put him upon his pins again.

—A horse attached to a milk wagon ran away from in front of Palmer's drug store, on Decatur street. vesterday evening. The animal was stopped before he got a block start, but in that short space he made kindling wood out of the wagon and mashed the milk cans into lumps of tin. Nobody was in the wagon at the time and nobody was hurt, though a half dozen or more citizens passing across the street were made to do lively hustling to escape being run down.

—The building at the corner of Alabama and Forsyth streets, which is being remodeled by Messrs. Maddox, Rucker & Co., for the accommodation of their banking business, is assuming handsome shape. A corner entrance, as handsome as any in the city, is being put in, and the interior is being elegantly finished off. There will be no handsomer banking office in the city than that of Maddox, Rucker & Co. when completed.

—The gentlemen interested in the projected

that of Maddox, Rucker & Co. when completed.

—The gentlemen interested in the projected Real Estate and Mining Journal held a conference in Captain A. B. Carrier's office, last night, to discuss the interests of the scheme in hand, but nothing of special importance was decided upon. Another meeting will be held tonight. It is proposed to form a stock company with \$10,000 capital, and it is probable that a charter will be applied for at once. The gentlemen interested say the first number of ithe periodical will appear about the 1st of October next.

Death of Mrs. John A. Murphy.

Death of Mrs. John A. Murphy.

IN THE U. S. COURTS.

THE CLERKS PREPARING FOR A BUSY FALL TERM.

More Than Five Hundred Cases to Be Tried-The Internal Revenue Collecti in Georgia and Alabama.

The United States district court is preparing The grand jury, lately drawn, will meet and organize for work on the first Monday in October, and there will be many cases for the

urors to investigate.

The clerk has been busy for the past few days issuing subpenas for the grand jury cases, and there will be armies of witnesses prought before the grand jury before its session is adjourned.

Return day will be September 15th, which is the time for all suits to be filed that are to be heard at the next session of the court. There are already a great list of cases filed upon the docket, and the district attorney says there will be more than 500 suits to be tried by the next term of the court.

The month of October has been set aside by

Judge Newman as the time for all civil cases to be brought before the court, and November will be the month for the criminal docket. The traverse jury has been drawn and will file into the jury box on the opening day.

THE COURT WILL MOVE.

Mr. Ollie C. Fuller, clerk of the court, thinks the postoffice building will be finished so that the next term of the court may be held in the

new quarters there.

The offices of the federal courts will probably be moved into the building within

two weeks. The new quarters will be handsomely fitted up for the courts, and the different offices will be equipped with all furniture in the latest and most approved style.

The Revenue Department.

Colonel W. H. Chapman has just made out his report of revenue collections for the month of August. The report is as follows:
Georgia. Alabama. Total

S1,776.55.

This table shows a fair collection for the month of August, which is usually one of the dullest months of the year for the revenue

There will be but few brandy distillers in Georgia this fall, the peach and apple crops having been such marked failures in every section of the state.

At present there are not more than thirty or forty brandy distillers operating in the state, and as a natural consequence brandy is going up in value every day.

The price has already advanced considerably, and especially in the southern part of the state, where the crop seems to have been most seriously injured.

PIEDMONT EXPOSITION.

The Directors to Visit the Grounds Today. The exposition directors will meet this after-

noon on the invitation of President James R. Wylie to visit the exposition grounds.

They will assemble at 4 o'clock at the old

Stoney-Gregory drug store, and will go on a special car tendered by the president.

The trip is intended to be one of inspection of the grounds, and to discuss the general advisable steps deemed necessary to put the grounds in proper shape for the coming show.

It is desirable and, in fact, important that every member of the board of directors should

The exposition men will spend the entire afternoon on the grounds, and will have discussions of many matters of vital importance to the company.

Let every member of the board of directors be ready to go to Piedmont park this after-

noon at 4 o'clock.

The LATEST AMUSEMENTS.

Several new features have lately been added to the immense list of amusements that will be enjoyed by the thousands of spectators that will be on the grounds from day to day.

The races will be of the best order.

Every day brings letters from the sporting men of the north and west stating that they will enter their best horses.

will enter their best horses.

Dr. Wilson has been putting in some licks for the exposition throughout Kentucky and Tennessee lately in reference to the racing feature of the great show.

The stables are already taken up, and other stalls will have to be built to furnish room for the horses that will be here.

The Wonderland Museum will be one of the chief attractions on the grounds.

chief attractions on the grounds.

This is termed the best museum of its kind

This is termed the best museum of its kind in the world, and with its curiosities and wonders lays a just claim to the title.

The Georgia Phonograph Company, of Atlanta, will have on exhibition the wonderful phonograph in the main building.

The space in all of the buildings is being rapidly taken up, and there are already but few feet left in each of them.

Different Kinds of Prodigals.

From The St. Paul Pioneer Press.

A prominent judicial light from the south, who had spent several years at Washington as United States senator from his native state, was in the States senator from his native state, was in the city not a great while ago, and told this story, which is worth repeating: In reconstruction times a couple of local politicians in Tennessee engaged in a debate on the all-absorbing topic. The first one, a white, cited the parable of the prodigal son, and argued that the southerners should be taken back in similar manner, and given all their former privileges. He made a touching speech, and seemed to have won his case. However, his opponent, a woolly-haired preacher, quickly took seemed to have won his case. However, his opponent,—a woolly-haired preacher, quickly took the platform and began his argument. "My ponent," he said, "done tole you about de prodigal son, and say dey all should come back jes like he did. But, my frens, we read dat de prodigal son came and stood a long way off till his fader saw him and ran and hung on his neck and kissed him. But taint so now; here we have de prodigal walkin' right up into the doors ob de capitol an' marchin' right in wid he's hat on de back ob de head and axin': 'Whah's dat veal?'

Does your Cake Dry up Quickly?

If so, your baking powder is adulterated monia or alum, ingredients which are injurious to health and are used by unscrupulous manufacturers simply to lessen the cost of the powder and increase their profits.

Housekeepers who use Cleveland's Superior Baking Powder know that food raised with this pure cream of tartar powder keeps moist and sweet, and is palatable and wholesome.

"Cleveland's Superior" has the peculiar property, possessed by no other baking powder, of producing light, wholesome bread, biscuit, cake, etc., that retain their natural moisture and sweetness. This desirable quality, in a baking pow-der shown by the Official Reports to be the strongest of all pure cream of tartar powders, makes Cleveland's Superior "Absolutely the Best." LETTERS FROM THE PEOPLE.

shall the Forests of Georgia Be Saved? Shall the Forests of Georgia Be Saved? EDITOR (CONSTITUTION: To the statesman or legislator, one among his numerous duties is to look after the general welfase of his state. To do this, he must be a man of broad views, liberal in his ideas, and should not be cramped by selfish men, who are influenced by selfish and personal considerations. In the discharge of his duties as a legislator he must exercise his best judgment as to what is best for the state; for what is best for the state; for what is best for the state is best for her citizens as a whole. In a recent article in THE ATLANTA CONSTITUTION it was stated by one of the largest is best for the state is best for her citizens as a whole. In a recent article in THE ATLANTA CONSTITUTION it was stated by one of the largest lumber dealers in Georgia, that "there were at least 150,000 acres of timber annually destroyed in Georgia by the sawmill men (I write from recollection, as the article alluded to has been mislaid), and the turpentine men tapping the smaller pines left by the sawmill men, would soon destroy the pine forests of Georgia, and it would not be long at the rate that timber was being destroyed, before Georgia would have to import, instead of export lumber." A man has a right to do with his timber as he pleases. No one will deny that right. But there is a way of saving much of the forests of Georgia, by laws enacted, that will not conflict with any man's right, and if so, steps should be taken by the legislature to save the forests of Georgia, that are being so wantonly destroyed. Three years ago I asked a millionaire in New York why he did not make an investment in the iron ore beds in the south. His answer was: "I do not wish to invest in iron, for the land is covered with iron. I want to invest in timber, which I am largely doing, for timber is becoming scarce, and the demand for timber must soon become great; timbered land is what I am after and want." His remarks struck me as very sensible.

I would say, at a rough venture, that in more

which I am largely doing, for timber is becoming scarce, and the demand for timber must soon become great; timbered land is what I am after and want." His remarks struck me as very sensible.

I would say, at a rough venture, that in more than the half of Georgia there is not timber sufficient growing on farms to fence them, and on fully one-third more, where timber is more abundant, it has been so culled and destroyed, that there is hardly timber enough left suitable to fence with. Now, should not this open the eyes of our people, especially the farmers, to the importance of saving what timber is left, for when timber has become exhausted, we have to resort to plank, posts, and wire to fence with, which is very expensive. Again, what timber is left is wanted for fuel, building purposes—for houses—railroad crosstics, bridges and numerous other purposes. Now to save the timber, would it not be best to pass a general stock law for the whole state, and save the expense and destruction of timber in fencing the farms. This is not an arbitrary law, for it iprevents no man from fencing in his farm who wishes to do? o, anl it is of great advantage to those who have not the tim bir to do so, or the means to have it done where the material has to be bought. Let there be a general f-nee law passed, and soon will the d. muded places be replenished with timber, which is now! e.ing destroyed as soon as it gets of any size that any use can be made of it. The great opposition to the stock law comes from a clars who own neither lands or timber, but perhaps a cow or two—and want the farms all fenced in so their cattle may range at large and be supported off other men's property—aprivilege certainly very dear to those who have to fence out such stock. The older counties have seen the folly of having their forests destroyed, and are trying, by replanting young trees every spring, to regain their forests. Is is not easier and more wise to save the forests than to have to replant and grow others? And if regained by replanting, withou

GAUSE-ROBERTS.

THE MARRIAGE OF TWO POPULAR YOUNG ATLANTA PEOPLE.

Items of Interest About People You Know Atlantians Who Have Returned to Their Homes-Other Notes.

The handsome residence of Captain E. M. Roberts, on Powers Speet, was the scene, yester-day afternoon, at 5 o'c bck, of a beautiful wedding day afternoon, at 50 capes, of a beautiful wedding ceremony. It was that which united Miss Sallie E. Roberts and Mr. Joseph G. Gause. The wedding was a quiet one, only relatives of the families and a few friends being present. The handsome parlors were appropriately decorated, and the of the marriage ceremony the wirds of the marriage ceremony were eloquently pronounced by Rev. B. H. Sassnett. The bride is one of Atlanta's charming and popular young women, greatly admired in a wide circle of friends. Mr. Gause is a young business man who has already made an enviable reputation with all his associates. He is one of the most popular young men in the city, and hosts of friends extend congratuations. ulations to him and to his bride. Mr. and Mrs

Mr. and Mrs. Will H. Imman have returned to Atlanta, after a several months' tour of Europe. As Miss Nanaline Holt, Mrs. Inman was one of Georgia's famous belies, and society here will ex-tend her the heartiest of welcomes, now that she comes as the wife of one of Atlanta's most promi-nent and most popular young men.

Messrs. Eugene R. Black, Fred Lewis and Henry grady returned from Athens yesterday, where they went to spend a few days. They stole a march on their fellow-students at the university, and enjoyed the first stroll of the season by Lucy Cobb. This school opened on Wednesday.

Mrs. DeJarnette's school opened yesterday. The opening was under the most flattering and favor-able circumstances.

There were thirty-five students in attendance,

There were thirty-five students in attenuance, and the term began in a very promising manner.

Last year Mrs. DeJarnette limited her school to fifteen pupils but on the solicitation of many of her patrons, she has now increased the limit to fifty, and has added a preparatory department, so that it is now one of the best equipped private schools in the city.

schools in the city.

Mrs. DeJarnette's school is an institution of the most select character, intended for girls only, and includes the preparatory and college grades. She has associated with her Miss Emma Hahr, in the musical department; Mrs. J. H. Hammond, in French; Miss Thornberry and Mr. William Lycett, in charge of the art classes. All of these teachers are specialists in their departments, and all are teachers well known in the city. Mrs. DeJarnette has been very successful as an educator, and her friends and patrons rejoice in her success and extend to her their heartiest good wishes during the

Miss Lula Ross, one of the most beautiful women of Georgia, who has been the guest of Atlanta friends for some days, left yesterday for her home

Dr. H. and Mrs. Mozley, Miss Pearl and Miss Ruby feft yesterday for Washington, New York and a general tour of the eastern cities.

Miss Leonora Beck, who this year is principal of the Capi'a Female College, will resume her school next Wednesday at the Angier Terrace. Miss Beck is one of Georgia's most talented and culti-vated educators, and will make her college one of the best in the south. She will be assisted by Mrs. Hugh Angier, Miss Emma Hahr, Miss Mag-gie Hahr, Miss Ada Brooks, Miss Lee Camp and Miss Hattle Ellis.

Professor W. W. Lumpkin, having spent a por-tion of the summer months with the leading elo-cutionists of Boston, has returned with Mrs. Lumpkin to their home in Atlanta.

Miss Lizzie Hetzel left the city yesterday for an extended northern trip. She will visit New York, Boston and other eastern cities.

To Chicago by All Means

Scientists want a meridian from which all the Scientists want a meridian from which all the world may agree to reckon time. To have part of the world counting from Greenwich and part from Washington is perplexing, and Is thought to be a needless expense. It is proposed to compromise on Jerusalem. If the proposition goes through the old and well-worn meridian of Greenwich will be disused, and Chicago should not fail to procure it for exhibition at her world's fair. It is very English, and its presence in Cook county would go far toward making some Boston visitors feel at home.

AND THE PEOPLE NEED NOT BE AFRAID.

Professor McCandless, the Chemist, Cleanses It, and the Board of Health Say It Is True that the Water Is Pure.

Atlanta's waterworks is better today than it

So says Professor McCandless. There was a joint session of the board

health, the water board and the waterworks committee of the general council yesterday. There were present Dr. Armstrong, Dr. Alexander D. Baird and Dr. Curtis, of the health

Mr. Haas and Mr. Winship, of the water Mr. Kontz, chairman of the waterworks

committee of the general council.

The meeting organized by selecting Dr. Armstrong as chairman and Dr. Baird as sec-

"Professor McCandless." said Dr. Alexander "is present I see, and I suggest that all business be suspended until we hear from him."

The motion prevailed and the chemist drev from his pocket a roll of paper. This he unfolded and then read. It was:

CHEMIST M'CANDLESS'S REPORT.

To the Mayor, Boards of Health and Water Com-

At a joint meeting of your boards held Friday, August 22d, I stated that I had been studying the trouble with our water, and believed that I could remedy it. Both boards authorized me to go ahead and see what I could do. My first step was to go out and study the mechanical construction of the filtering apparatus, which is somewhat in-tricate in detail. I decided after examination that I could accomplish my purpose. This was to force large volumes of pure air through the water under pressure. After much difficulty I finally secured a powerful air pump from the Richmond & Danville railroad, through the kindness of Captain Berkley, who agreed to loan it to the city at the request of Mayor Glenn. On Friday evening, the 20th instant, I succeeded in getting the pump ready for action, the quickness with which it was done being largely due to the energetic zeal of Mr. Andrews, machinist from the Richmond and Danville shops, aided by Mr. Travis, engineer at the

works. I at once set the pump to work, and began forcing the air under pressure through the foul water as it comes in from the pond. The air bubbles and gurgles through it, through the whole length of the intake pipe, follows it on into the filter tanks, down through the minute in-terstices of sand and coke in the filter beds, coming into thorough contact with every drop of the water, follows it on through the discharge

pipe, purifying, aerating, oxidizing and chasing out the gases, which pro-duce the disagreeable odor, until it comes to the surface in the clear water basin, like a great boiling spring in millions of sparkling bubbles, and the water dipped from the clear water basin is entirely devoid of odor. It is on this, principle that running streams purify themselves. Suppose a dead animal had fallen into a mountain stream, and for a time sulfied its purity; the stream rushing on, turningsver and over, break-ing over rocks, dashing down' waterfalls, comes ever in contact with fresh air, and is completely reparified. We are doing the same thing, only in the water under pressure. I next turned my at-tention to the excess of alum, which I have always considered by far the most important and serious problem in connection with our water supply, the odor being of course disagreeable, but entirely harmless, and merely an indication of the source from which it sprang But that source—namely, the decomposing vegeta-ble matter in the pond—is entirely eliminated in the process of filtration, and the offensive gases without their source are utterly harmless much so as the odor that remains in a gun barrel after the powder and ball have been discharged. But to accomplish this coveted end, that is the removal of the decomposing vegetable matter, the alum is an indispensable agent, and the officials had been compelled to use an excessive amount of it in order to clarify the water and kill all disease-producing germs. This they did, so that we had in Atlanta the anomaly of a strong mineral water, containing sul-phuretted hydrogen, iron and alum, offensive to taste and smell and yet incapable of producing taste and smell and yet incapable of producing disease. I have succeeded completely in so regularing the supply of alum, that just the requisite quantity for filtration is used, and not a trace of it can be discovered in the filtered water; it is all taken out with the mud in the filter beds. I have reduced the amount of alum from a barrel and a half a day, a few days since, to something less than half a barrel a day. It was this excess of alum which was the great defect of the system, it was corroding pipes and destroying the boilers of steam-users all over the city, dissolving iron from them, so that the water on standing in open vessels deposited a red coating of iron and threw

vessels deposited a red coating of tron and threw up a seum on to the surface resembling oil and which many of my obtuse and perverse friends continue to assert up to this very moment to be oil, but which all intelligent and observing citizens know was not, as no man yet ever succeeded in producing a greasy mark with it. Doubtless every one who washed his hands with soap this morning noticed that the water had a soft and not a rough feel, that when the alkali of the soap touched it it did not turn red from the precipitation of iron, as it has been doing for these many days, but looked milky just like well or spring water when soaped. This trouble of excess alum will not occur again, or if it does, will not be for more than aday or so, until I can get to the works to see where the trouble is.

The character of the pond water has been much improved by the intelligent and energetic labors of Mr. Veal in reinoving vegetable matter from the eiges of the pond. The pond water, however, is still very foul and smells badly as it comes to the filter tanks, and would be entirely unfit for consumption were who of the intervention of consumption were who of the lintervention of consumption were who was a linter while others do not. This is due to the fact that there are agreat many places in the city where there are quarter there is no circulation whatever. Even here the water is much improved, but will never be as good and perfect as it is along the lintervention. There is no the product when the water is thorough and perfect circulation. There is another point while his produ

we adopt that report as the sense of this first joint session and direct its publication in The ATLANTA CONSTITUTION.

It was done.

Dr. Baitd made a statement showing that the cotton seed oil about which the great kick

came was pure.
"I now move," said Dr. Alexander, "that the thanks of this meeting be given Professor McCandless. Certainly he has rendered Atlanta a great good. By his work he has cleansed the pond and broken up a great un-

The motion was adopted by a rising vote "I thank you, gentlemen," said the chemist.
"If I have done any good for Atlanta I'm satisfied.'

Dr. Baird then introduced a resolution re-turning the thanks of the board to Chief Sanitary Inspector Veal for his faithful work in cleansing the pond.

IN THE CITY HALL. The Board of Education Has a Meet-

The board of education came together in called session yesterday afternoon in Superintendent Slaton's office, Hon. W. A. Hemphill, president, in the chair.

Upon the first roll call there was no quorum Later, when Messrs. Roach, Kontz, Smith, Bray, Hirsch, Green, Thomson and Beattie answered to the roll call, the meeting began Superintendent Slaton presented a paper showing the crowded condition of certain grades of the public schools, and the absolute necessity for more room in the high school building, so that the business course might be

better taught. Several plans and changes were suggested by the superintendent and member,s but none were satisfactory.

"In my opinion," said Mr. Bray, "the office of the superintendent should be moved down town. That is the case in larger cities. Then we could have more room by taking these two.' "But the city hall is crowded to death, now,"

said Mr. Hirsch "I favor the plan suggested," said Mr. Smith. "It would be much more convenient

for everybody." Mr. Thomson favored the change

So did Mr. Kontz.

into it.'

"I move," said Mr. Bray, "that the committee memorialize the council for apartments "When our building is finished." said Mr.

Hirsch, "we will rent the city a suit of rooms for \$50. "That's cheap enough," remarked Mr. Smith, "and I suggest that the committee look

After prayer, by Rev. J. W. bee, the national call was read, which is remarkable in the fact that it is the first instance in the history of the organization that it has ever been invited to a city by the governor and legislature of the state, in addition to the unicipal authorities.

It was unanimously resolved that THE Constitution be requested to publish the call in full, for the benefit of the friends of the

in full, for the benefit of the friends of the union throughout the country. It reads:
Call for the Annual Meeting of the National Woman's Christian Temperance Union of 1899.
The following official documents from the state of Georgia were received during the last annual meeting of the National Woman's Christian Temperance Union, held in the city of Chicago in the year 1889:
ATLANTA, GA., October 28, 1889.—To the Officers and Delegates of the National Woman's Christian Temperance Union: The subscribers hereto, officials and citizens of the state of Georgia and city of Atlanta, respectfully endorse the invitation to your eminent and philanthropic body to hold its next annual national convention, in the autumn of 1899, in this the capital city of the state of Georgia.

In support of this most cordial invitation we hear

Georgia.

In support of this most cordial invitation we begt to emphasize the fact that Georgia is one of the foremost states of the south and the union in whee and efficient temperance sentiment and laws; that our people are keenly alive to the great concerns of refligion, morality and good government; that they are deeply interested in all beneficent reforms; and that they are arrient and skilled in the duties of hospitality and helpful patriotism.

skilled in the duties of hospitality and helpfulpatriotism.

Your body will find among us a sincere co-operation in your labors and overy good office to further the harmony, wisdom and success of your deliberations for the general good.

J. B. GORDON, GOVERNOR.

R. U. HARDERSON, COMM. Agr.

JAMES S. HOOK, State School Com. for Ga.

F. G. DUBIGNON, Pres. State Senate.

A. S. CLAY, Speaker of House.

Accompanying this was a copy of the resolution adopted by the senate and house of representatives of Georgia. c-ydially requising the Woman's Christian Temperance Union the act favorably upon the inv tition, and tendering for the use of the convention the rooms and halls of the old state capito.

man's Christian Temperance Union to be travorably upon the inv tition, and tendering firste use of the convention the rooms and halls of the old state capito. In response to these invitations, and with gratitude therefor the 17th annual meeting of the National Werm is Christian Temperance Union will be held in Trinity Methed 18th Episcopal church, south, in the c ty of Atlanta, Ga., from Friday, November 18th to November 18th, inclusive.

The first meeting of the executive committee will be on Wednesday, November 12th. On the same day the board of superintendents will meet. On Thursday, November 13th, the plan of work committee, consisting of the executive committee and the board of superintendents, will meet. All these meetings will open at 9 o'clock a.m.

Mrs. M. L. McLendon, 117 Washington street, Atlanta, chairman of the committee of entertainment, will soon give, through The Union Signal, all necessary information concerning the entertainment of Ordelgates, and board at hotels and private boarding houses.

Miss Helen L. Hood, 161 La Salie street, Chicago, Ill., our faithful and efficient committee on railroad rates, will also give schedule of reduced rates at an early date.

Unparalleled peace and prosperity have been within our walls the past year, for which our hearts overflow with thanksgiving, and that we may unitedly give unto our Lord the glory, and together seek His blessing upon our membership, we ask that October 29th be set apart as a day of prayer and thanksgiving. A programme will be prepared for a morning and afternoon meeting on that day. The weekly prayer meeting of the church is usually held on Wednesday, Thursday or Friday evening. Our women are a part of the church in usually held on Wednesday, Thursday or Friday evening. Our women are a part of the church in usually held on Wednesday, Thursday or Friday evening. Our women are a part of the church in listant, hoping with others to join the triumphant host, when we "have fought the good fight, fluished the course" and "kept the faith."

So

Reports from various committees showed that quite a number of homes had been already obtained for delegates, of whom there ill be 500 or more in attendance from th 14th to the 18th of November, inclusive.

It was suggested that the work of securing homes and financial assistance for the entertainment of the visitors be thoroughly system atized so as to be able to properly entertain the visitors.

All who will furnish homes for delegates were earnestly requested to send their names and the numbers of their residences to Mrs. M. L. McLendon, No. 117 Washington street
It was also resolved that the ministers of the city be urged to interest themselves and their congregations in the grand work of assisting the ladies in their great self-imposed task of giving the visitors a generous entertainment.

HOME FOR THE FRIENDLESS. A Proposition to Lease or Sell the Elsas

Hotel. There was quite an interesting meeting of the ladies of the Home for the Friendless, yesterday morning, in the parlors of the Young

Men's library.

Mr. J. C. Hendrix, as agent for the proprietors, appeared before the ladies with a proposition to either sell or lease the hotel erected by Mr. Elsas for the operatives of the Fulton Cotton Spinning mills, to the ladies of the home to be used as the Home for the Friendless.

After hearing the proposition, which was not made definitely, so far as figures are concerned, the matter was referred to the execu-tive board of the home, together with the advisory board of gentlemen connected with the home for their consideration.

It will be decided upon early next week whether negotiations for either the purchase or lease of the building will be opened with

the proprietors.
Other business of a routine nature was conducted, and the board adjourned. Smith's Tonic Syrup.

This famous remedy was discovered by the eminent Dr. John Bull, of Louisville, Ky. It is intended as a scientific substitute for ani

eminent by some sure, or Lousville, Ny. It is intended as a scientific substitute for quinine, and is rapidly superseding the use of this drug. For any ailment that may indicate a need of quinine, Smith's Tonic Syrup may be prescribed in preference and with more satisfactory results, as it never leaves any unpleasant after-effects, such as fullness of the head, headache, buzzing in the ears, deafness, uneasy or aching sensations, nausea, convulsions, paralysis, etc. It has all the good medicinal qualities of quinine and is free from its many evil tendencies. As a tonic, antiperiodic and antipyretic, it is unexcelled by any drug known to medical science. In cases of malaria, colds, influenza, inordinate temperature of the body, feverish symytoms, chills and fever, etc., no other remedy can be used with such certainty of beneficial effects. It is a certain antidote for the evil influences of malaria and climatic changes.

WEST END ACADEMY! WESTEND. - · · ATLANTA, GEORGIA RESUMES SEPTEMBER 8, 1890.

A THOROUGH, GRADED SCHOOL FOR BOTH SEXES; A BROAD, WELL-PLANNED CURRICulum, consisting of Primary, Grammar and High School studies is offered. There are ten grades
and five teachers. Our aim is to do as good work and have a school as efficient and well-disciplined
as can be found anywhere. A large addition to the building affords ample accommodations for all.
Rates of tultion very reasonable: For first four grades, children from West End and Fulton county
will pay \$10 per annum, quarterly in advance; other grades, \$15 per annum. Atlanta pupils will pay
\$15, first four grades; other grades, \$20 per annum. A successful music denartment is operated in
connection with the school. For further information address.

IRON FENCING and FIRE ESCAPES, CRESTING AND BUILDERS' IRON WORK.

Chattanooga, Tennessee,

We have just completed Fire Escapes on the Kimball house, Metro politan hotel, Constitution building, Block building, etc., etc., and invite he attention of the public to their substantial finish and durability. Send for estimate and catalogue.

GEORGIA

GAINESVILLE, GEORGIA.

Cor. Decatur and Pryor Sts., opposite the Kimball This is the first anniversary of the opening of The Dresden China Store in Atlanta. We are happy to say that we have suffered no disappointment and that the good people of the Piedmont section have stood by us. Our enterprise in giving Atlanta a first-class china store has been appreciated and our thanks are due to our friends and patrons whose continued good will is herewith

solicited.

A large part of our new importation have arrived, amongst which is the largest assortment of dinner sets, tea sets and chamber sets ever shown

We do not sell at original cost price, neither have we any odds to sell; our stock is new, no old shopkeepers to get rid of, but everything bright and fresh and our prices low enough to meet any competition.

Our stock of hold china is complete and person in need of such goods will do well to inspect ou stock and prices.

RAILROAD COMMISSION.

THEY RENDER TWO IMPORTANT DE-CISIONS YEST ERDAY.

One Upon the Matter of Percentages, and the Other Upon the Matter of Joint Rates.

Two of the most important decisions ever rendered in the history of the railroad commisnion were rendered yesterday.

One concerns the matter of percentages. The other is about joint rates. Two circulars were issued embodying the re-

milts of the labors of the commission.

Circular 170, concerning percentage, is what

THE CONSTITUTION predicted two or three days ago. It removes the existing percentages on the standard tariff allowed the East Tennessee road, the Atlanta and West Point road, and the Plant and Central systems, and the Richmond and Danville system, including the Georgia Pacific, and substitutes a percentage of 10 per cent along the entire lines of these roads, except on classes C, D, F, J, P and rosin, upon which classes the rates are already very low. Upon the East Tennessee and Central roads shippers, both north and south of Macon, are placed on equal terms. Heretofore these roads were allowed to charge, south of Macon on shipments of certain classes, 50 per cent on a haul of forty miles, 40 per cent on a haul of seventy miles, 30 per cent or hauls of 100 miles and 20 per cent on hauls of over 100 miles. The conditions under which the different portions of the lines above and below Macon are operated are inore nearly equal than when the commission was organ-lzed and the standard tariff adopted, and the commission has long had in contemplation the equalization of these rates when it became practicable, as an act of justice to the shippers in the southern part of the state.

On the Atlanta and West Point road, the result will be to reduce the rates considerably. The character of the country through which this road runs, and the business of the road as shown by its reports, in the judgment of the commissioners justified this reduction.

On certain classes, it must be remembered, there is no change whatever in the present rate. These are, C, D, and F, J, P, and rosin. This includes cotton and lumber.

SEPTEMBER 3D,1890.—CHANGE IN FREIGHT TARIFF BEPTEMBER 3D, 1890.—CHANGE IN FREIGHT TARIFF.
On and after October 15th, 1890, all percentages now allowed, excepting those on classes C, D and F, for the transportation of freights, originating and terminating in the state, over the roads composing the Central system, the Plant system, and Richmond and Danville system, and over the Atlanta and West Point, and East Tennessee, Virginia and Georgia, railroads shall be removed, and said roads will be allowed for the transportation of such freights the commissioners' standard tariff, with 10 per cent added for all distances, for all classes, excepting C, D, F. J, P and rosin, and the rates thus established shall be the local rates for the systems and roads herein named.

rder of the board. L. N. TRAMMELL, Chairman

The other circular—171—simply carries out the act of the last general assembly, authorizing the commission to make joint rates over connecting roads. The rate established by this circular is a reduction of 10 per cent on the local rates of each of the roads over which business passes, from one to the other, is now authorized to charge.

ABOUT JOINT RATES.

The following has been ad Pt d as rule No. 30 of the rules governing the transportation of freight: On all shipments of freights not governed by rule 1, originating and terminating in this state, which shall pass over the whole or portions of two or more roads, not under the same control, the maximum rate charged on such shipments shall not be greater than the sum of the local rates on such freights less 10 per cent for the distance hauled over each road. The total rate thus ascertained on such freights from the point of shipment, to the point of destination, shall be divided in such proportions between the roads byer which such freights pass, so as to give to each road interested in the shipment its local rate less 10 per cent, for the distance such shipment is hauled.

Nothing in this rule shall be construed to precept, the total of any joint rate made under this ABOUT JOINT RATES.

rate less 10 per cent, for the distance such shipment is hauled.

Nothing in this rule shall be construed to prevent the total of any joint rate made under this rule from being divided in such proportions between the roads interested in such proportions between the roads interested, shall in no way affect the total joint rate to be charged and collected on, or work delay in the transportation of, such freights, or be a subject of appeal to the commission by the roads at interest.

This circular te take effect October 15, 1890.

By order of the board.

A. C. Briscoe, Secretary.

On this class of business the rates are frequently high, on account of each road exacting its full local rate.

its full local rate

The action of the commission in respect to these complex and difficult subjects is the result of long and careful investigation and an honest desire to do justice to all the parties at

BRANDED FOR LIFE.

The Fiendish Revenge of a Doctor on a

From The New York Journal. Branded across the face with a red-hot iron!
The word "Thief" in three languages
stamped upon the face of a youth, so that it
must remain there for all time.
And this for taking a single apple from an
orchard

orchard.

Israel Bizerowsky, of No. 24 Orchard street, yesterday received a letter from his wife, who is visiting friends in the city of Bylstock, in Poland, in Russia, containing an account of a horrible cruelty inflicted upon a young relative. With it came a photograph of the unfortunate youth after he had suffered the awful punishment.

the awful punishment.
Isaac Shilckewich is seventeen years old.
He lives with his parents, hard-working peasant people of excellent repute.

ant people of excellent repute.

One day he was passing by an orchard owned by Dr. Sergen Freudianow, one of the wealthiest men in the province—famous in that part of Poland as a scientist.

The doctor saw the youth take the apple, and dispatched his servants after him. The boy had taken only one apple and he was eating it when the servants overtook him. They took him hack to the doctor. took him back to the doctor.

took him back to the doctor.

Dr. Freudianow first gave Isaac a severe thrashing. That did not wear out his rage, but seemed rather to increase its violence.

"I'll teach you," he said, "to rob people. I will mark you so that all the world shall know you for the thief that you are."

He bade his servants bring him some stamping-irons, which are used about the place. He directed them to bind Isaac so that he could not move a muscle.

directed them to bind Isaac so that he could not move a muscle.

He took up the steel letters and set up the Hebrew word "ganew" in Russian characters. He plunged the stamp in the fire until it was almost red-hot. Then, with fiendish skill, he forced the iron upon the forehead of the boy. The victim fainted. The sickening odor of burning human flesh filled the room.

The doctor plunged the iron in cold water and then set the Polish word, "dieb," meaning thief, in the frame. Again he placed the stamp in the fire and while it was heating listened to the moans of his victim. When it was sufficiently hot he stamped the word upon both cheeks.

The awful agony brought the sufferer to consciousness. He screamed in pain.

The fiendish doctor chuckled over them. Again he resumed his inhuman task of preparing the stamp. This time he set the Russian word for thief, "bopr," in the frame. For the third time he heated it and pressed the red-hot stamp upon Isnac's upper lip and chin.

The awful screams of his victim warned the

Chin.

The awful screams of his victim warned the

The awful screams of his victim warned the doctor that he must use caution. He carefully dressed the wounds and gave the boy an opiate. Then he sent him home.

The barbarity of the deed aroused the poor people of the city. They threatened vengeauce. Dr. Freudianow became frightened, and offered to pay the boy \$10,000 to have the matter dropped. The money was refused, however, and a prominent lawyer has taken the boy's case. The doctor has been arrested, and he may have to serve a long term of imprisonment, besides paying heavy damages.

I prescribe Smith's Tonic Syrup in my practice, having found it to be as recommended—a cure for chills and fever.—A. Browne, M. D., Concord, Tex.

THE THREE LINKS.

THE GREATENTERTAINMENT AT DE-GIVE'S SATURDAY EVENING.

The Programme for the Odd Fellows' Enterment in Honor of the Grand Lodge Officers About Finished.

An elegant programme. For a royal entertainment.

That is what has been prepared by the committee on programme, for the recoption to be given the officers of the grand lodge, Independent Order of Odd Fellows, at DeGive's, Saturday evening.

The committee on programme, consisting of Messrs. William Kinyon, chairman, Central Lodge; H. G. Hutchinson, Empire Encamp-ment; R. G. Jacksor, Barnes Lodge; A. M. Reinhardt, Capitol Lodge; W. H. Gardner, Myrtle Lodge; Thomas H. Quinn, Atlanta Lodge; H. Franklin, Schiller Lodge, have been very busy during the week in getting up

a programme worthy of the grand occasion.

The result has been most eminently satisfactory, and the labor of these gentlemen has been crowned with most gratifying success. THE PROGRAMME.

As arranged the programme will be as fol-1. Introductory speech by Hon. John B. Gordon,

governor of Georgia.

Music—Wurms' orchestra.

2. Speech of welcome, by Hon. John T. Glenn, mayer of Atlanta, in behalf of the city.

3. Response by grand master-elect, Judge James A. Anderson.

James A. Anderson.
Music-Violin solo, Professor Blumenfeldt.
4. Welcome to the Odd Fellows of the state, by
Hon. Clark Howell, Jr.
5. Response by Deputy Grand Master R. T.
Daniel, of Griffin.
Music-Piano recital by Miss Emma Hahr.
6. Address of welcome in behalf of the press of
the city by Mr. H. H. Cabaniss.
7. Response by Past Grand Master R. B. Russell,
of Athens.

of Athens.

Music-Vocal solo by Miss Nellie Knight, of Anniston, Ala.

8. Address by Past Grand Patriarch C. A. Robbe, of Augusta, as representative of the grand engagement.

campinent.

Music-Bass solo by Mr. Samuel Burbank.

9. Address of the representative to the soversign grand lodge, Hon. John B. Goodwin.

Music-banjo solo-Professor J. C. Carlisle.

C. P. Taylor, plano accompaniment.

Recitation by Mrs. W. Milton Legg, nee Miss
Leila Richardson.

OFFICERS WHO WILL BE PRESENT. The list of officers who will be present is as follows, Grand Patriarch John Asher, much to the regret of the committee and brethren at

large, being unable to attend: Officers Grand Encampment-John Asher, G. P., Griffin, Ga.; Jesse P. Kinyon, H. P., Atlanta, Ga.; A. H. Manuey, G. S. W., Savannah, Ga.; M. O. Berry, G. J. W., Columbus, Ga.; John G. Deitz, G. S., Macon, Ga.; L. H. Hall, G. T., Atlanta, Ga.

vannah, Ga.; M. O. Berry, G. S., W. Columbus, Ga.; John G. Deitz, G. S., Macon, Ga.; L. H. Hall, G. T., Atlanta, Ga.

Grand Representative—C. A. Robbe, G. R., Augusta, Ga.

Officers Grand Lodge—James A. Anderson, G. M., Atlanta, Ga.; R. T. Daniel, D. G. M., Griffin, Ga.; J. Van Berchott, G. W., Savannah, Ga.; J. S. Tyson, G. T. Savannah, Ga.

Representatives to Grand Lodge—John B. Goodwin, Atlanta, Ga., § C. H. Dorsett, Savannah, Ga.

OTHER FEATURES.

The recitation by Mrs. Legg, nee Miss Richardson, will be one of the most enjoyable features of the evening, and will alone be well worth attending were there no other attractions. As Miss Richardson she has given receptions in New York, Boston and other cities, where her appearance has been greeted with great enthusiasm and has called from the critics the highest praise.

The committee on music has been fortunate indeed in their selection.

The music-loving people of Atlanta and their visiting friends will on this occasion enjoy a rare treat. The performers are all artists of rare merit and national reputation.

Miss Hahr, so well known and so highly appreciated by our people for her charming and and unequaled piano recitals, will delight the audience with some of her choicest selections. Professor H. Blumenfeldt, "a second O'e Bull," will charm the hearts of his listeners with the exquisite production of his violin.

Bull," will charm the hearts of his listeners with the exquisite production of his violin. Miss Nellie Knight, of Anniston, Ala., whose recent visit to this city, gave so much pleasure to her large circle of friends, will add greatly to the enjoyment of the evening with her highly cultivated voice.

Mr. Sam Burbank is so well known to the Atlanta public that no praise is necessary.

Professor J. C. Carlisle is a master of the banjo, and has done much to bring this instrument its deserved recognition.

The credit of this programme is due to the untiring efforts of Mr. T. H. Jones, chairman of the committee on music.

untiring efforts of Mr. T. H. Jones, chairman of the committee on music.

The work of the committee on invitations, Messrs. C. F. Rice, chairman, R. G. Jackson, and A. M. Reinhardt, has been unremitting, and they have issued invitations to 250 heads of families, friends of the order, who are expected to attend with their wives and daughters. They have extended invitations to every secret order in the city. This committee has done its work well, and the gentlemen composing it deserve the thanks of the order for the thorough manner in which they discharged their duties, which were of a very onerous nature, but were to them a work of love.

Salt rheum, with its intense itching and burning, is cured by Hood's Sarsaparilla. Many who were formerly severe sufferers have reason to thank "the peculiar medicine" for cures effected.

The School Commissionership.
The Athens Ledger: The question of school commissioner is one on which Governor Northern will have to decide. There are several candidates already announced. This is becoming a very important office. The public schools of Georgia need improvements. There should be a man in that office who could exert influence on the legis-

lature. Judge Hook has given general satisfac-tion in the office. He has improved the grade of the public schools with-out drawing on the tax payers for more funds. By the system of rigid examination which he has in-stituted a much better class of teachers has been obtained. Governor Northen has much practical experience as a teacher and there is no man in the state better acquainted with the need of the public school system of Georgia than he. No doubt he will exercise great discretion in the choice of

GREAT DANGER.

They Should Be Avoided-A Few Points in They Should Be Avoided—A Few Points in Regard to Them.

When the Creator in His wrath (or for His glory?) saw fit to expel His first creation, His own image, from the garden of Eden, He placed on them the curse of disease and death. In after generations He visited His chosen people with many "plagues for their disobedience," but of all the many ills He inflicted upon his fallen creation none are more painful, more loathsome, or more errible in its effects than fistula in ano; fearful in its ravages and dangerous to life, robbing one none are more painful, more loathsome, or more errible in its effects than fistula in ano; fearful in its ravages and dangerous to life, robbing one of all the pleasures of living. But, as in all other afflictions, He has given a remedy; science in its primitive state was unable to utilize the remedy without eausing most intense suffering, and oftentimes leaving the victim in a condition much worse than at first. It was left for the progressive physicians of the present age to offer you a pleasant cure for this most unpleasant disease. You need no longer fear the "knife," with all its pain and dangers, for it is unnecessary. I have laid aside all hareh means and treat you by a rational treatment that when properly applied for a sufficient time will cure you. Have you fistula? If so, it is unnecessary to ask you if you wish to be cured of it. But do you wish to avoid the intense pain of a severe operation, or are you wedded to the old belief that you cannot be cured without the crude and painful means formerly employed? If you are, I have nothing to offer you. If you are not, I offer you the very latest that science can give you. I have cured many by this rational method, and I offer the same to you confidently, promising you satisfactory results. Many ladies are afflicted with fistula. To all I say, do not let your timidity prevent you from availing yourself of this opportunity to obtain a cure. My arrangement for privacy are all you could wish. Promising to verify all my claims. Respectfully, Dr. R. G. JACKSON.

I prescribe Smith's Tonic Syrup in my practice, having found it to be as recommended—a cure for chills and fever.—A. Browne, M. D., Concord, Tex.

THE CROP REPORT.

THE LAST BUT ONE THAT COMMIS-SIONER HENDERSON WILL MAKE.

Noticeable Decrease in the General Condition of Cotton—Due to Rust—Fallure of Oats, Wheat and Fruit.

Below is given Commissioner Henderson's crop report for the month of September. It is full of valuable information

One of the most important features of the report is that calling attention to the decrease in the condition of the cotton crop. Circular No. 182, new series.—Crop report for the month of September, 1890.—Returned to the de-partment of agriculture, September 1, 1890. State of Georgia, Department of Agriculture, Septem-ber 3, 1890:

Condition, compared to an average of-

It will be observed from the above table that there is a general falling off in all crops from August 1st to September 1st. The decrease in the general condition of THE COTTON CROP during that time, is especially noticeable, viz:

during that time, is especially noticeable, vizitwelve points.

This decrease is mainly due to rust, which has appeared in every section of the state. In southwest deorgia is exists in every county in a very destructive degree. Previous reports show that that section, southwest Georgia, has not suffered a day for rain. On the contrary, they have been too copious and abundant for cotton. In other sections, somewhat protracted droughts prevailed in June and July of from four to eight weeks, followed by heavy and continuous rains for about one week, beginning about the 23d of July.

July.

In consequence, from every section come reports of rust, boll worm and shedding of fruit.

Altogether the prospect for the cotton crop is less promising than for several years.

This in connection with the total failure of the OAT, WHEAT AND FRUIT demands of our farmers the most rigid

economy.

The commissioner has, from time to time, advised the cultivation of the grasses and stock raising; he has published articles from the pens of the most successful cultivators of the grasses. He has uffect the adoption of a system of diversified acticulture.

has diged the adoption of a system was agriculture.

He can but repeat these suggestions and urge the farmers to adopt them. Patriqtism demands it. Love for our children, and the legacy we would leave them, requires it.

In all agricultural, mechanical and mineral development, Georgia is justly recognized as the leading southern state. To aid in this grand result has been my earnest effort for the past eleven years, and in soon retiring to private life. I shall do so with the consciousness of duty performed.

JOHN T. HENDERSON, Commissioner.

AT THE THEATER.

A large audience greeted James H. Wallick in his familiar production of that very essence of the border drama—"The Cattle King"—last night, and everybody seemed to enjoy it immensely. and everybody seemed to enjoy it immensely.

"The Cattle King" is especially attractive because of the excellent acting of the several trained horses which figure in the play and the skillful handling of them by their riders. Mr. Wallick has filled the different roles in his "equestrian melodrama" with sufficiently good people and, as a whole, the entertainment is acceptable. The people know what to expect, and the appliance which

Cannot Tell a Lie

Said the father of his country. No better motto could possibly be selected upon which to build a character or a Clothing business. In this age of exaggaeration and bombstic claims of superiority to the disparagements of others, it seems a little old for an advertiser to follow the example of the aforesaid father. But this course pays in the long run. People are discriminating. Constantly customers are saying: "Well, you don't make as big claims as some people, but you have the largest and best stock in Atlanta, and prices the most reasonable." All I ask is a call. Seeing will convince you quicker than a whole page of advertising.

LIFE AT CRAIG-Y-NOS.

ALFREDO BARILI RETURNS FROM A VISIT TO MME. PATTI.

Talks About the Gay Pleasures of Castle Life—The Domestic Life of Madame Patti—A Noble Woman.

Mr. Alfredo Barili returned to Atlanta yesterday from his extended visit to his aunt, Madame Adelina Patti-Nicolini.

He has been away from Atlanta for quite while, and is welcomed back by scores of

while, and is welcomed back by scores of admiring friends.

Mr. Barlii has had a most enjoyable stay at "Craig-y-nos," which is the castle of Madame Patti in South Wales.

The place is in a delectable region whose mountain scenery, streams and dense foliage makes it vie with a poet's dream of fairy Arcadia, while the cool breezes, pure water, and social enjoyments of castle life combine to make it an ideal place for rest, for enjoyment, for a life that is perfect.

"Craig-y-nos" is one of the quaint old Welch castles that affords an inspiration to behold. Couched behind the rising peaks of several lofty mountains by little rivers, gravel drives, groves and rural shades, it is a picture which, when viewed from one of the neighboring hills, is just far enough away to look dreamy, reposeful and inviting. Here at this quiet, classic old castle, lives Adelina Patti.

Mr. Barlii was seen by a Constitution representative and asked about his trip.

"Oh, I tell you," said he enthusiastically, "I have had a brief interval of dear life in very truth, for that is the place above all others to visit, I believe. I spent most of the time I was away at the castle with my aunt, though a part of the time I was in London.

"The old castle and lands around are delightful. There are fully 1,300 acres in the tract, and through this several clear, beautiful rivers run, dividing up groves, hills and craggy peaks.

"There are thirty-four servants and game

peaks.
"There are thirty-four servants and game keepers about the place, and no comfort, no luxury is lacking in life at 'Craig-y-nos.'
"Did you live with stiff formality?" was asked.

"No, not at all. It was on the contrary an easy life, but, of course, the dinners were formal and elegant. There were about twenty-five guests at the castle with Madame Patti while I was there, and they were all prominent musicians of the European provinces.

"Among them was Fito Mattei, the celebrated composer, for whom I soon professed much attachment. All of the company were musicians of great repute, and we had a great deal of enjoyment, getting together and spending the evenings with music and dancing. Quite a large theater has just been finished in the castle, and in this we had several plays into which they enticed me several times."

SHE DOESN'T SING.

castie, and in this we had several plays into which they enticed me several times."

"Does Madame Patti sing for her guests?"

"No—never. She is too modest. I believe she is the most modest woman in the world considering her wonderful qualities. She never talks about herself—never mentions her life of repeated successes, and seems absolutely indifferent to recognize her own powers by which she has charmed the world. And yet she is one of the few female singers that have ever been decorated by the crowned heads, which in olden times meant to be knighted. They all love her with admiration, while the poor worship her for her gracious charity. She gives two performances a year for the poor people of that section of country, many a poor life has been made happy by her in this way. She is a beautiful and noble woman."

WILL SHE COME TO AMERICA?
"Do you think Madame Patti will ever come

"Do you think Madame Patti will ever come to America again?"
"She says not, but I think she will, if enough is offered her. Abbey, the American manager, was over to see her while I was there, but she declined his offer. She is charmed with America, and is, in fact an American. She was born in Spain, but was reared from infancy in New York state. She is forty-six years old, but doesn't look it a bit.
"She practices singing in her room every

old, but doesn't look it a bit.

"She practices singing in her room every day, and when I was there she had me to play with her every morning. She wanted me to engage to play with her this summer, but I could not. I did, however, make an engagement with her to play through the provinces of Europe next summer. of Europe next summer.

"Yes, I had a charming visit to my aunt, for with all the enjoyments to be had at the old castle, none was greater than the very fact that I was with my aunt, who virtually raised me. I am very fond of her."

Hood's Sarsaparilla is in favor with all clas ses because it combines economy and strength. 100 Doses One Dollar.

Bowden Lithia water cured "Uncle Remus" of

odds. The Odds An Atlanta Firm Has For the

Public. Dobbs, Way & Co., will trade with you for the next thirty days, and let you have "odds to boot;" in fact, they have inaugurated the odd sale of the year.

They will sell, at greatly reduced prices, Odd, Tea, Dinner and Chamber sets. These goods are beautifully decorated, and are pure importations and genuine in every respect.

Tea Sets at \$3.75, \$4.50, \$5 and upwards. Dinner Sets at \$10, \$12, \$15 and upwards. Fine China Dinner Sets at \$25 and upwards. Haviland Dinner Sets at \$40, \$50, \$60 and

upwards. Dobbs, Wey & Co. are not what you call "cut-price men," they have simply reduced the price of their goods to the original cost, in order that room may be had for their fall stock. They will make a specialty in odd prices of all kinds, and those who visit their storerooms in the next few days will most assuredly get a bargain. All their odd pieces will go at a nominal price. Have yoo a broken tea, dinner or toilet set? If so, go to Dobbs, Wey & Co.'s and buy the odd pieces; you can

get them for almost a song.

Remember, this great reduction sale begins September 1st, and continues for thirty days. This firm has had their buyers in the east for some time, and are selecting an immense stock of Crockery, Giassware and general Bric-a-Brac. They import most of their goods direct from England, Germany and France. Room must be made, and this great reduction sale has been inaugurated. Now, if you want any-thing in the Crockery or Glassware line, go to Dobbs, Wey & Co.'s, 45 Peachtree street, and get it at original cost.

THE BROWN & KING SUPPLY COMP'NY

Agents for "Gilbert" Wood Split Pullies. All sizes in Stock.

Dealers in all kinds of Rough and Dressed Lumber. Large stock

and fair prices. Office and Yards Corner Humphries and Glenn Sts., on East Tenn. Railroad

Nearly time for you to hustle into a heavier coat. When the time is perfectly ripe you'll not make a wry over the cost if the merits of our styles be fairly considered. Many of our products are strictly original. As progressive manufacturers it is our glory that we create a class of clothing which for elegance and general reliability is unknown beyond our doors.

This week we open up a magnificent variety for showing and for selling. Two thousand of the handsomest Fall Suits you ever cast your eyes on-tony, swell, inexpensive and every other beauty enhanced by scientific workmanship. Novices don't sew for us--none but adepts employed. Think

of that when a buying impulse seizes you. Price? Well, you'll have to come inside and not hurry out if you wish to catch a proper idea of their cheapness.

Boys' Clothing for the Fall and Winter of 1890. Every mother in Atlanta should see the stock. The skill of our factories has been devoted to bringing out fresh things for the retail trade. Boys' Clothing claims first call because the school days are here. We realized the present season would outdo all others in the largeness of sales, and the manufacturing department was gauged accord-

ingly.

There's a gem for every growth of boy from the littlest to the biggest; from earliest knee-breeches to young manhood. Plaids, mostly. Hundreds here now. Others coming---but plenty arrived to see how alert we are.

You know this is the principal point in the South for school suits. From wide, bold plaids to neat, quiet checks, and in each case you can depend upon it being best. They give fine service to the most coltish boy.

were not for the American tariff England would shut up every American cotton manufactory within two years.

Mr. Butler said he did not know anything about that; but he had been very much gratified and encouraged to see his republican friends enlarging their economic vision somewhat, reaching out to South America, Central America, Canada and other parts of the world, and he thought that the information presented by him might be of service. He showed how absolutely Great Britain had control of the market in South and Central America, and also in Asia and Africa, the value of cotton goods exported into those countries by Great Britain last year being \$177,000,000, against about \$20,000,000 from the United States. He, therefore, asked to have the paper printed in The Record. So ordered. THE DEBATE CLOSED. The presiding officer (Mr. Ingalls) announced that the general debate on the tariff bill had closed, with the exception of the reservation of a day when the final vote is to

AMOS CUMMINGS TALKS be taken, and when two hours' time is to be allowed each side.

LITTLE BLACK LIST.

Mr. Kerr Attempts to Choke Off Mr. Cum

mings, But Is Prevented by Messrs.

Blount and Bland. WASHINGTON, September 4.-In the house,

The gentleman who had offered the resolution

had made unjust imputations and in making these imputations, he had falsified the record

and blacklisted himself. He then proceeded

to make an attack upon Mr. Cannon, comparing him with the noted Tinville, of the French revolution. In support of his resolution the

gentleman from Illinois (Mr. Cannon) had appealed to the record. The gentleman from

Iowa (Mr. Henderson) had seconded the gen-tleman from Illinois and had used the word

"sneak." There had been some sneaking done, as the record indicated. The record showed

that the speaker had refused to the house the

list of names of absentees. Fancy the great chairman of the great committee of appropria-tions—the successor of Samuel J. Randall— sneaking to the clerk's desk and obtaining

surreptitiously a list of members that had been

refused to the house, and upon this list basing

a false accusation against his fellow members. Was not that an act worthy of Tinville? He

then proceeded to arraign the speaker and the majority of the committee on rules. This

majority composed a triumvirate, almost as powerful as the one which sprang into life

after the assassination of Julius Cæsar. When the house met in the morning, Mark Anthony

recognized Lepidus or Octavius and nobody All the legislative meat was cut and

dried and distributed according to the pre-

INTERRUPTED BY KERR. Mr. Cummings was frequently interrupted by Mr. Kerr, of Iowa, and Mr. Dunnell, of Minnesota, with the point of order that he was not confining himself to the question of per-

Mr. Cummings proceeded with his arraignment of the speaker, but after frequent inter-ruptions, asked unanimous consent to print the remainder of his remarks in The Record, but this consent was refused by Messrs. Kerr

Mr. Cannon remarked that the gentleman

was printing a speech under the false pretense of making a personal explanation.

Mr. Cummings—That pretense is not as false as the pretense by which you smuggled my name into that black list.

Another interruption was made by Mr. Kerr.

MR. BLOUNT ON THE FLOOR.

This interruption was protested against by

Mr. Blount, of Georgia. Not twenty-four hours ago, said he, a gentleman on the other

side was permitted to arraign a senator of the

The gentleman from Georgia cannot take the gentleman from New York off the floor.

Mr. Blount-Yesterday a gentleman on the

other side was permitted, in violation of the rules of the house, to arraign asenator as felon and to arraign his colleagues for associating

ith felons.

Mr. Cannon—The gentleman has no right to

Mr. Cannon—The gentleman has no right to state a question of personal privilege during the time of the gentleman from New York.

Mr. Blount—I am not stating a question of personal privilege, but there has been continued interruption of the gentleman from New York, and an effort to suppress him that I have never seen attempted before, and, even in the light of the transactions of yesterday, is savegedingly conpressive.

exceedingly oppressive.

Mr. Cummings then proceeded with his speech, and at the end of an hour was stopped by the gavel of the speake., pro tem. (Mr. European)

Burrows).

Mr. Bland made the point of order that in speaking to a question of privilege, a gentleman was not governed by the hour rule.

The speaker pro tem. overruled the point and Mr. Bland appealed.

MR. BLAND CARRIES HIS POINT.

Mr. Cannon moved to lay the appeal on the the table and on this motion demanded the

previous question, but Mr. Bland protested

by the famous Cannon resolution.

The sugar schedule was laid aside informally and schedule I—"Cotton Manufactures"—taken up. Amendments to reduce HE ATTACKS MR. CANNON AND THE

factures"—taken up. Amendments to reduce rates in various paragraphs of the schedule were offered by Messrs. McPherson, Carlisle and Vance, and were uniformly rejected without a yea and nay vote. Agreed to.

Mr. McPherson moved to strike out paragraph 336, relating to stockings, hose and half hose, and to substitute for it one making the rate of duty 40 per cent ad valorem. Rejected. Yeas, 20; nays, 27. Messrs. Paddock and Plumb voted with the democrats in the affirmative Neither Mr. Ingalls nor Mr. Manderson voted. Mr. Cummings, of New York, rising to a ques-tion of privilege, protested against his "black-

All the paragraphs in schedule I having been disposed of, schedule J was taken up, relating to flax, hemp, jute and their manufacture. The finance committee had reported an amendment to paragraph 340, reducing the rate on flax not hackled or dressed from 14 cents per round to \$20 per top. On this cents per pound to \$20 per ton. On this amendment Mr. Washburn demanded the year

amendment Mr. Washburn demanded the yeas and nays.

A vote was taken and the committee amendment agreed to. Yeas, 32; nays, 14. All the democrats voted yea. The negative votes were given by Senators Allen, Cameron, Casey, Davis, Dolph, Higgins, McMillan, Moody, Paddock, Pierce, Sherman, Stockbridge, Washburn and Wilson of Iowa.

REDUCING THE DUTY ON FLAX.

The next amendment was that of the finance

The next amendment was that of the finance committee to paragraph 341. It was to reduce the duty on hackled flax from 4 cents per pound to \$40 per ton. Mr. Carlisle said that all these raw mate

rials—flax, hemp and jute—ought to be on the free list, so that the duty on textile fabrics into which they entered might be reduced. He thought it useless, however, to make a motion to that effect.

Messrs, Davis and Wilson, of Iowa, Dawes

Messrs. Davis and Wilson, of Iowa, Dawes and Washburn, argued against the amendment, and Messrs. Hiscock and Allison for it. It was agreed to. Yeas, 33; nays, 16.

Mr. Allison explained why the amendment had been reported from the finance committee. There was a great pressure, he said, on certain portions of the country, for the development of linen manufacture, which found its home in New Jersey and New England. He had his doubt as to whether it could be manufactured in the immediate future. But in order to make it a success, the house bill proposed to double the duty on linen fabrics, of which only the coarser sorts were made in the United States. If duties were doubled on raw materials, then, as a matter of course, the duty would have to be doubled on the manufactured fabric. If the senators were ready to do that, they would vote against the avendment. on the manufactured fabric. If the senators were ready to do that, they would vote against the amendment. He was not quite prepared to do that, especially as he knew that not one particle of flax produced in Iowa, Dakota, or Minnesota could be utilized for fibre, and at the same time utilized for seed.

The democrats all voted for the committee amendment, and the following recording to

The democrats all voted for the committee amendment and the following republicans against it: Messrs. Allen, Cameron, Casey, Davis, Dolph, Higgins, McMillan, Manderson, Moody, Mitchell, Paddock, Pierce, Quay, Sherman, Stockbridge and Washburn.

On the next paragraph (342) the finance committee had reported an amendment to reduce the duty on flax, or hemp tow, from \$25 to \$10 a ton. Agreed to without the yeas and nays.

AFTER THE BINDING-TWINE TRUST. The next paragraph, relating to hemp, brought the binding-twine trust under discussion. The committee amendment to paragraph 344, increasing the duty on yarn made of jute from 30 to 35 per cent, and striking out the words "sisal or manilla," was read, and Mr. Carlisle moved to reduce the

read, and Mr. Carlisle moved to reduce the rate to 25 per cent.

Mr. Carlisle's amendment was agreed to.

In the next paragraph, imposing a duty of 1½ cents a pound on cables, cordage and twine, the finance committee had proposed to insert the words "binding twine," and to strike out the words "binding twine 1½ cents per pound."

Mr. Aldrich withdrew the amendment, so as to leave the paragraph as it came from the house.

house.

Mr. Davis moved an amendment to strike binding twine out of the paragraph, in order to have it afterwards placed on the free list.

Mr. Vance favored the amendment as a move in the right direction. It would do something for the agricultural community, and he hoped that the senator from Minnesota would co-operate with him in putting cotton bagging (when it was reached) on the free list, and then they could all sing together: "Blest be the tie that binds."

Several republican senators opposed this

Several republican senators opposed this amendment as being at odds with the underlying principle of the bill, but it was agreed to. Yeas, 34; nays, 24. that he was entitled to the floor. Amid applause on the democratic side the speaker protem. recognized Mr. Bland's right to the floor. Republicans voting age were Messrs. Allison, Davis, McMillan, Mitchell, Moody, Paddock, Pierce, Plumb, Squire, Washburn and Wilson of Iowa. Only one democrat, Mr. Blodgett, voted no. Mr. Bland yielded to Mr. Cummings, and notwithstanding a protest from Mr. Kerr, the speaker pro tem. recognized the gentleman from New York, who proceeded with his speech; finally Mr. Cummings concluded his

THE DUTY ON COTTON BAGGING. The committee's amendment to paragraph 349 relating to bagging for cotton, reducing duties of 1 6-10 cents and 1 8-10 cents per yard to 1 3-10 and 1 5-10 cents was agreed to, Mr. Vance moved to strike out the whole

paragraph, so as to have cotton bagging placed on the free list. Rejected, yeas, 24; nays, 31-

on the free list. Rejected, yeas, 24; nays, 31—
a party vote.
No other amendments to the schedule, except
committee amendments, were successful.
The schedule on pulp, papers and books was
taken up. All of the committee amendments
were agreed to, but no others. The same is
true as to the paragraphs relating to pearl,
shell and bone buttons, cork, bark, feathers
and crinoline cloths.
Paragraph 426, relating to curled hair, having been read, Mr. Vance said that if he could
only get the people to read the bill their hair
would curl without any encouragement.
[Laughter.] o'clock tomorrow.

Mr. O'Ferrall, of Virginia, argued in favor of the contestee, and paid a high eulogy upon the character of the sitting member.

Mr. McCarthy, of New York, reviewed the testimony in support of his view that Mr. Breckinridge was duly elected. He criticised the action of the subcommittee which had been sent to Arkansas, declaring that a majority of the members had gone to that state with the sole purpose of unseating the sitting member. the sole purpose of unseating the sitting member.

Mr. Tracy, of New York, also spoke in favor of Mr. Breckinridge, and was followed by Mr. McRae, of Arkansas, who made an earnest attack upon Powell Clayton, in which he declared that that state would send Clayton to the senate, penitentiary or anywhere else to get him out of its borders. [Laughter.]

After a speech by Mr. Maish, of Pennsylvania, in favor of the minority report, the case went over.

[Laughter.]
The end of the dutiable schedule was reached

without a break in the programme.

The sugar schedule and several other paragraphs which were passed over informally remain for action After a brief executive session, the senate adjourned.

Sims, Dunwody Jones, all of Fulton county, Georgia, and M. R. Mallett, of Thomas county, Georgia, showeth that they, their associates and successors, desire to be incorporated under the name of

they, their associates and successors, desire to be incorporated under the name of "THE GEORGIA PHOSPHATE AND MINING COMPANY," for and during the period of twenty years, with the privilege of renewal at the end of that time. The principal office and place of business of said association shall be in Fulton county, Georgia, but the directors thereof shall have the right to establish branch offices at any and all other places.

places.

The object of said association shall be to earn pecuniary profits for the members thereof.

The particular business of said corporation shall be mining phosphate and all other materials used for fertilizers or in the manufacture of acids used for fertilizers or in the manufacture of acids and fertilizers, buying, selling and manufacturing all kinds of acids and fertilizers, and all materials used in the manufacture of acids and fertilizers, buying and selling lands or the mineral interests therein, or both, and owning, leasing and operating mines of every description whatever.

The capital stock of said association shall be \$250,000, with the privilege granted to the directors thereof to increase said capital stock to any amount not to exceed five hundred thousand dollars. Said stock shall be divided into shares of \$100 each.

Petitioners pray that they may buy and hold

Rars. Said stock shall be divided into shares of \$100 each. Petitioners pray that they may buy and hold such real estate, erect and maintain such building and machinery as may be necessary in carrying out the objects of said association, and that they buy, hold and sell such other real and personal property as may be conveyed, mortgaged or pledged to said association; that they may erect and maintain tramways and roads of every description upon which either steam or horse power is to be utilized. That they may elect or appoint the proper officers to govern and carry out the purposes of said association; that they make such rules and regulations for the government of said association not inconsistent with the laws of this

propers of said association; that they make such rules and regulations for the government of said association not inconsistent with the laws of this state or of the United States.

The capital stock of said corporation shall be paid in cash or in such property, at its fair value, as may be necessary in carrying on the business of said corporation.

Petitioners further pray that they be granted any and all other corporate powers necessary to the conduct of the business above described, and such other powers and privileges as are granted to corporations under the laws of the state of Georgia.

And petitioners will ever pray, etc.

Georgia.

And petitioners will ever pray, etc.

ROSSER & CARTER,

Attorneys for Petitioners,

Filed in office, August 6, 1890.

G. H. TANNER, C. S. C.

State of Georgia, Fulton County.—The above is a true copy of the original petition for charter of the "Georgia Phosphate and Mining Company," as appears of record in this office.

Witness my hand and seal of said court, this August 7, 1890.

G. H. TANNER,

Clerk Superior Court,

PROPOSALS FOR FRESH VEGETABLES.—
Office A. C. S., Fort McPherson, Atlanta, Ga.,
August 25, 1890.—Sealed proposals, in triplicate,
subject to the usual conditions, with a copy of
this advertisement attached, will be received at
this office until 12 o'clock noon, on Friday, September 28, 1890, and then opened in presence of
bidders, for furnishing and delivering the fresh
vegetables required by the Subsistence Department, C. S. Army, at this post, for issues to troops
thereat during the remainder of the fiscal year
ending June 20, 1891. The fresh vegetables must
be in good, wholesome condition. Samples must
accompany proposals. Preference will be given
to articles of domestic production or manufacture,
condition of quality and price (including, in the
price of foreign productions or manufactures, the
duty thereon) being equal. Proposals must be inclosed in sealed envelopes, marked "Proposals for
Fresh Vegetables," and addressed to the undersigned. The government reserves the right to reject any or all proposals. Full isformation may
be obtained by application to this office. L. H.
WALKER, First Lieutenant Fourth Artillery, Actling A. C. S.

The Day on the Floor of the New York Stock

The Day on the Floor of the New York Stock Exchange.

NEW YORK. September 4.—The stock market has been as dull as usual in the general list, but a marked activity in a few stocks saved it from utter stagnation and gave tone to the rest of the list. The featuref of the day's trading were a renewal of attacks upon Rock Island and Burlington and Quincy, weakness in Silver Certificates and comparative strength in Sugar Refineries. The bear attacks upon Grangers furnished most of the interest in the day's transactions, and the pressure upon Burlington was such that it was further depressed about 2 per cent. The theory of the movement which found most favor was that covering in Rock Island was going on under cover of the attack upon Burlington. Rock Island, however, was less active than usual of late, while its prices fluctuated over a comparatively narrow range, and it yielded but little, which may be regarded as giving color to the theory before mentioned. The course of Silver was a sore disappointment to many operators, and the fact that tioned. The course of Silver was a sore disap-pointment to many operators, and the fact that notwithstanding that the secretary of the treasury has exceeded the proportion of purchases of the month, and there remains only a few thousand ounces to be absorbed, the price has never rallied since reaching 121, and the prospect of carrying stocks over the next two weeks is not inviting to speculators. Sales were large today and the price speculators. Sales were large town and the pre-yielded almost steadily throughout the day. Sugar was strong in the early trading, but failed to hold all of its improvement, becoming again very dult toward the afternoon. There are rumors that the directors are not all agreed as to the proper course to pursue in matters of reorganization, and that stock feels the influence. The opening was made on a very moderate volume of business and gen-erally at unchanged prices among the active erally at unchanged press among the active stocks, but the pressure upon Burlington extended to the rest and a general shading off took place, with frequent rallies, which finally left the list as a rule, but slightly below the figures of last even-ing. Sugar gave way to a final drive toward the close, when it lost all of the forenoon's advantage with a fraction in addition. The pressure was abated somewhat in the last few minutes, and the close was dull but steady at fractional concessions in all cases but that of Northwestern, which, while it cut no figure in the dealings, was not sup-ported, and its final loss extended to 1 per cent. Sales of listed aggregated 111,000 shares, unlisted Exchange more active and strong at 483 24.86%.

Money easy at 31/2 05, closing offered at 4. Sub-treasury balances: Coin \$153,615,000; cur dull but steady . 49 12514 . 41/9 104

Hubbard, Price & Co.'s Circular.

Hubbard, Price & Co.'s Circular.

NEW YORK, September 4—[Special]—The net decline in Liverpool today is 10-64d on September and 6-64d on the distant positions from November-December following. The feeling there, so our cables advise us, has been almost panicky, and the drop has been larger than has been known for years in 24 years. Here prices have been comparatively steady, the net decline being about 12@15 points as compared with yesterday. From the bottom figure touched there was a reaction of from b@6 points, which was fairly well held until just at the closing, when the announcement of the failure of Messrs. Sawyer, Wallace & Co. created some alarm and led to a liquidation of considerable cotton that had been bought with the expectation of a reaction. The suspension of this time-honored house is rather the result of unfortunate

operations in the Chicago market, so we are told, than in cotton, in which they were but slightly interested, and its immediate effect upon prices is not expected to be great, although a considerable shock to general confidence has been given by it. The receipts at the ports are 13,000 bales, against 10,000 bales last year. The southern markets have been quite weak, Savannah declining ½c to 9½c. The other southern markets are lower by about ½c. Our telegrams lead us to expect that receipts will be more moderate in consequence of the decline in values, as the planters have no longer the inducement of high prices to hurry their cotton forward. It is, of course, impossible to estimate the force of the present unsettled feeling in the cotton market, but after such a decline as we have had today, a reaction would seem to be natural. had today, a reaction would seem to be natural. Today was the weekly settlement day in Liverpool, and everything is reported to have gone through satisfactorily, no further failures having been an-

By Telegraph.

LIVERPOOL, September 4—12:15 p.m.—Cotton business good at easier rates; middling uplands 515-16; sales 12,000 bales; speculation and export 1,500; receipts none; American none; uplands low middling clause September delivery 53:64, 5:06-64, 529-64; September and October delivery 5:06-64, 5:06-6

Features of the Speculative Movement in

Grain and Provisions.
CHICAGO, September 4—Wheat—A large busi-CHICAGO, September 4—Wheat—A large business and lower prices were characteristics of the market today. The feeling was decidedly nervous and feverish; and while the movement of the market was attended with numerous ups and downs, the tendency mostly favored lower prices. Speculative offerings were heavy, some of the prominent traders selling freely, supposed to be short wheat, and some parties who bought a day or two ago at higher prices were selling out. ago at higher prices were selling out. The market opened steady and rather firm with sales at %co better prices than the closing of yesterday, but weakened and quickly sold off 1@11/2c, then rallied 1c, but again became weak, this time reaching a point 1%@2c below the highest figures touched at the opening, held steady and closed about 1%c

Corn-There was a fair trade, though at times the market was rather dull. The feeling developed was easier, and lower prices were established sn all futures. The decline in prices was due to free realizing. The first trades were at a slight advance, but a weak feeling followed and prices sold off 7 @1c, rallied some, ruled steady and closed with Oats were traded in with less freedom. The

opening was strong and a shade higher. A weaker feeling developed, and prices receded 1/4@%c; and after numerous changes within a small range the market closed quiet and easy at about inside fig-

Mess nork-An active trade was reported and the feeling was somewhat unsettled. Early prices ruled 21/4.25c lower, but later prices declined 25/2 30c, and the market closed rather tame at inside

Lard—Trading was fairly active. Early prices ruled 2½c higher, but later receded 5@7½c.

Short ribs—A rather quiet and steady feeling prevailed early, and there was no particular change to note. About the middle of the session prices declined 74@10c, and the market closed at about inside figures. The following was the range in the leading fu-

tures in Chicago today:
